1 INSTALLATION

1.1 Driver Installation

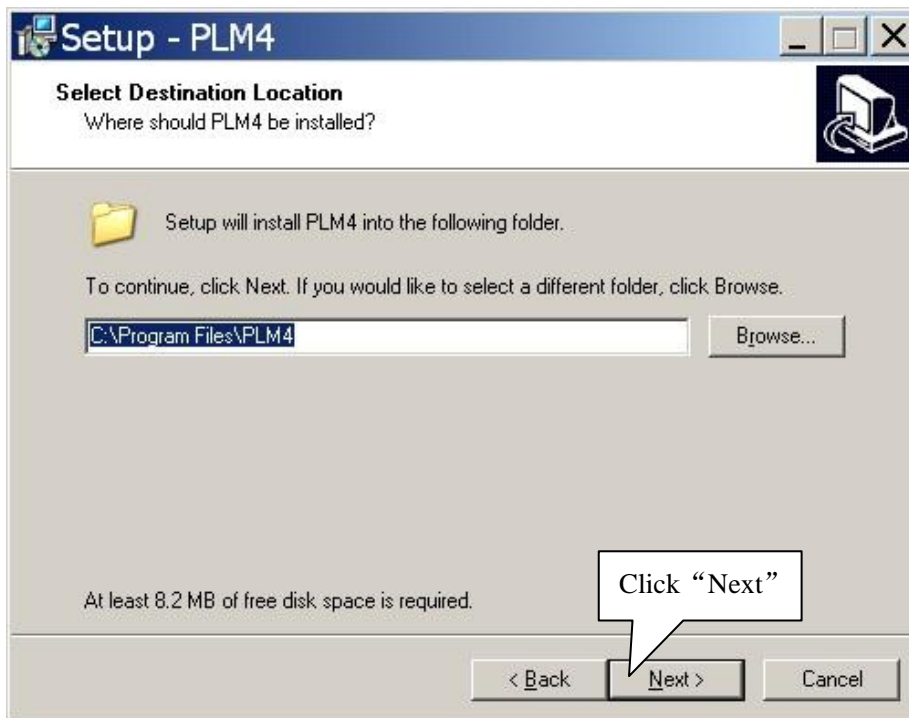

You should install the driver before you install the software. Double click the “dotNetFx40_Full_x86_x64.exe”, then you will see the below interface:

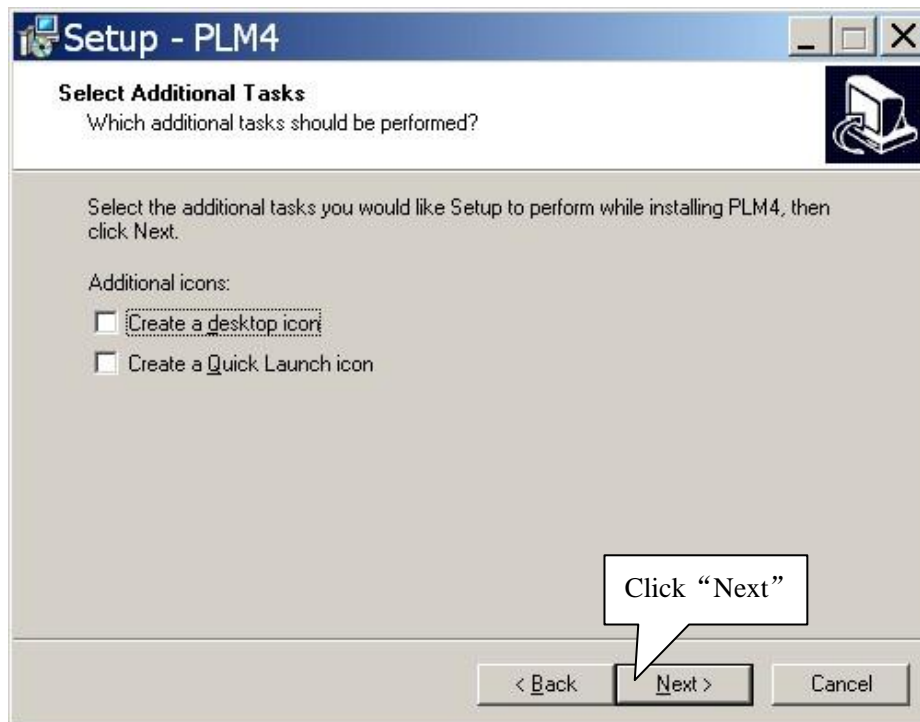

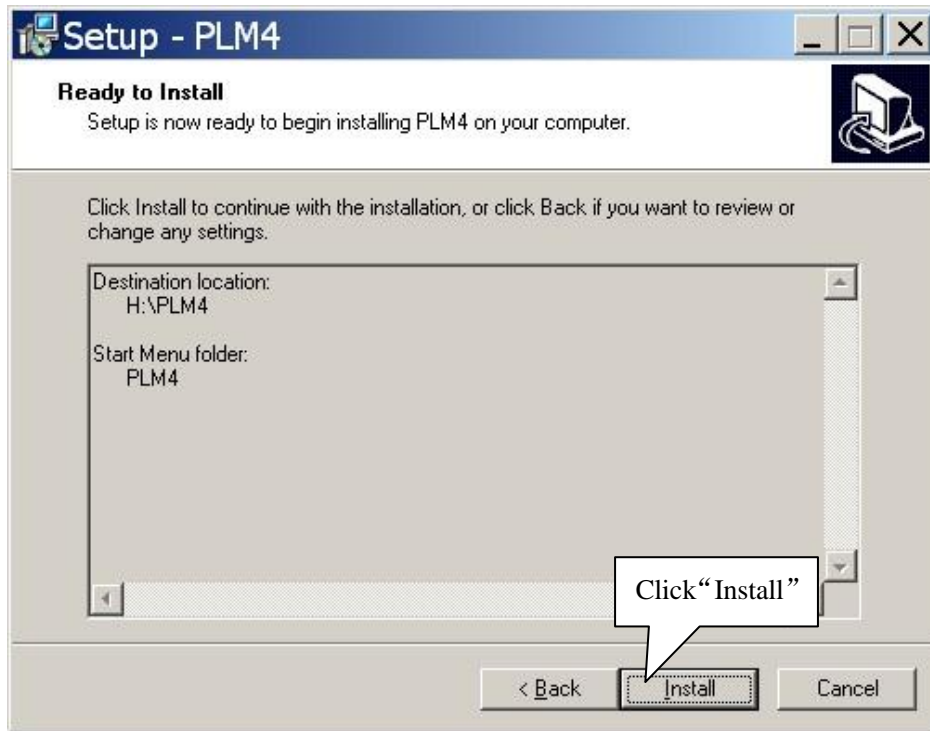

1.2 Program Installation

Double click “setup.exe”, and then you will see below interface:

2 Link scale to PC

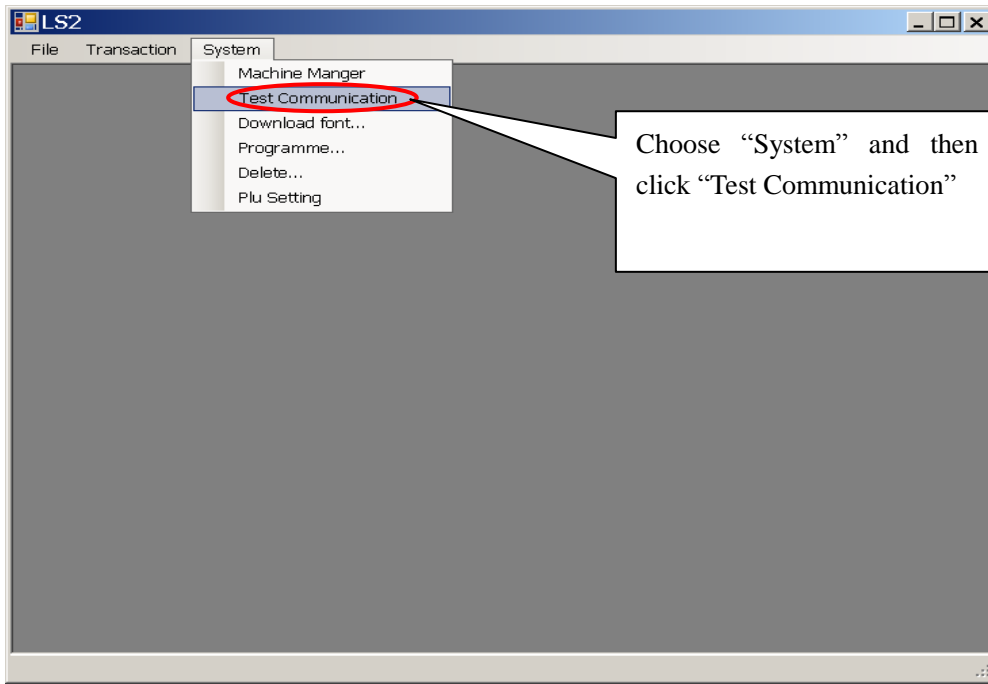

1. Connect scale to PC: Via Ethernet port
2. Communication Test

Double click LS2.exe, and then you can see below interface:

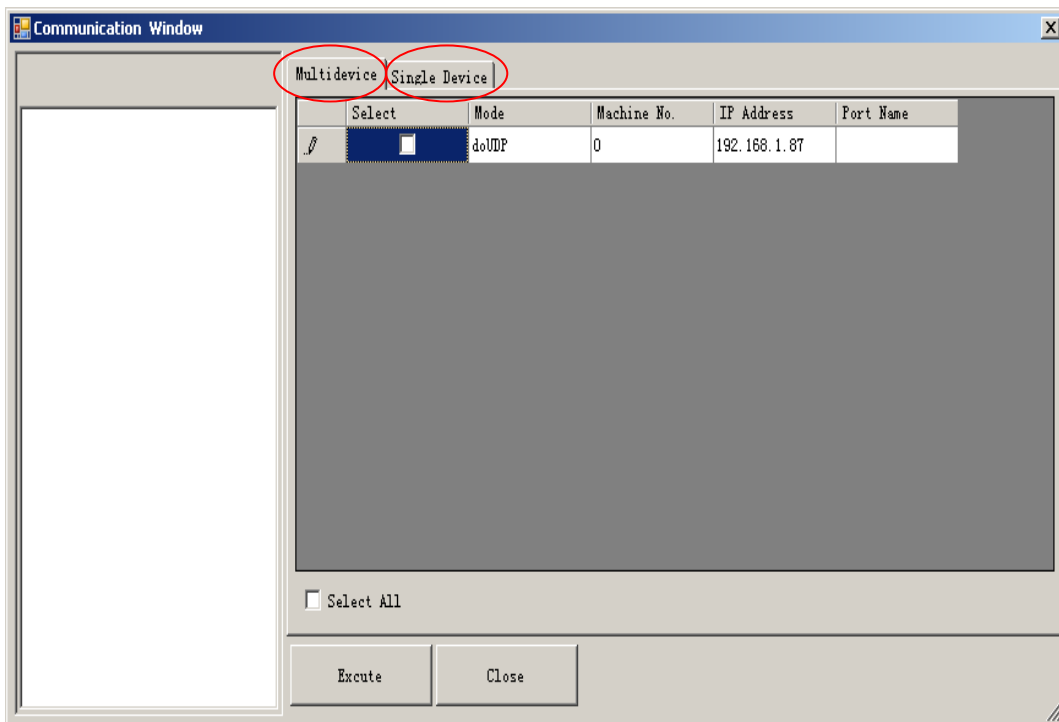

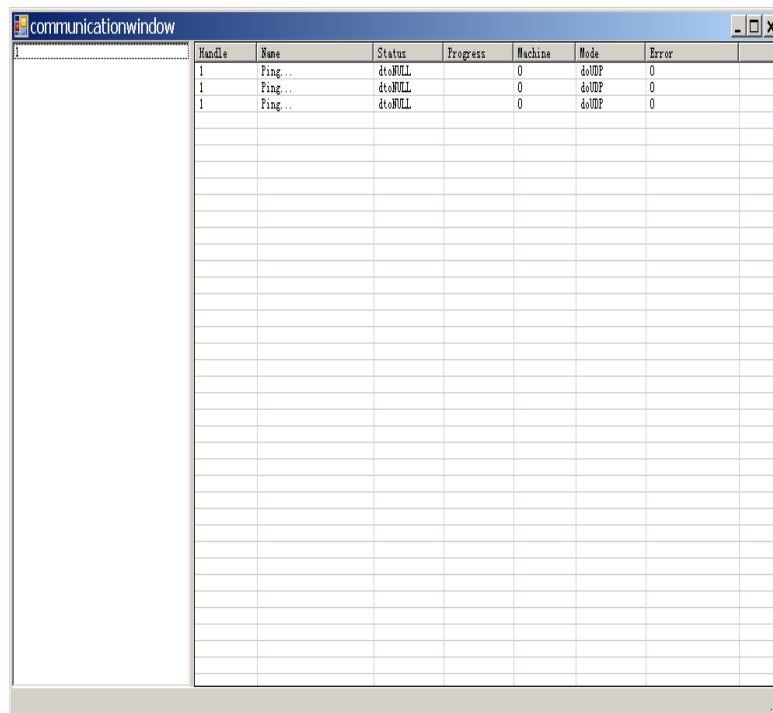

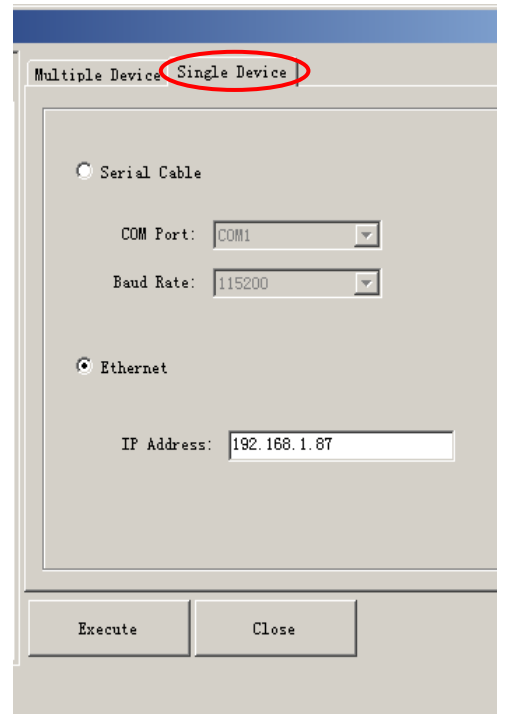

The default user name is '**admin**' and password is '**123**'.

You can choose "single device" or "multidevice" at your need and click "execute" to confirm.

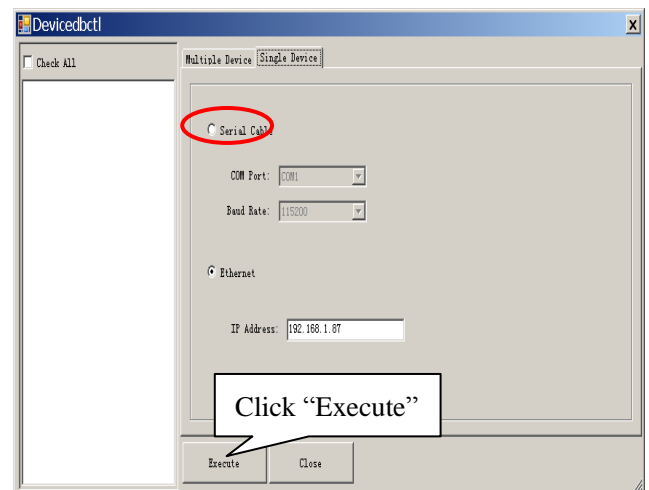

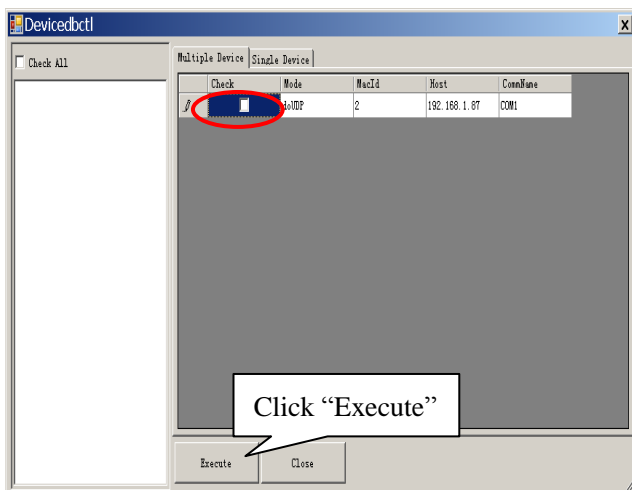

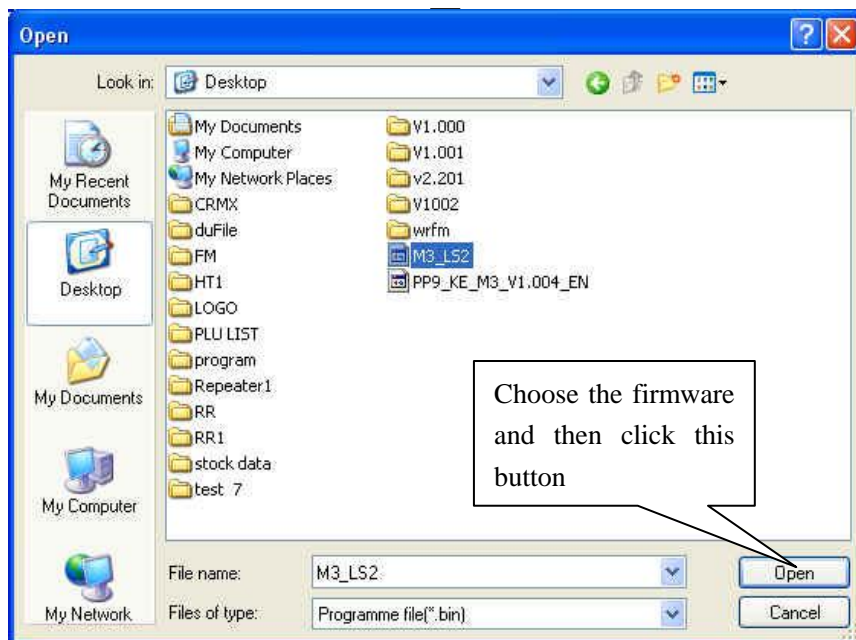

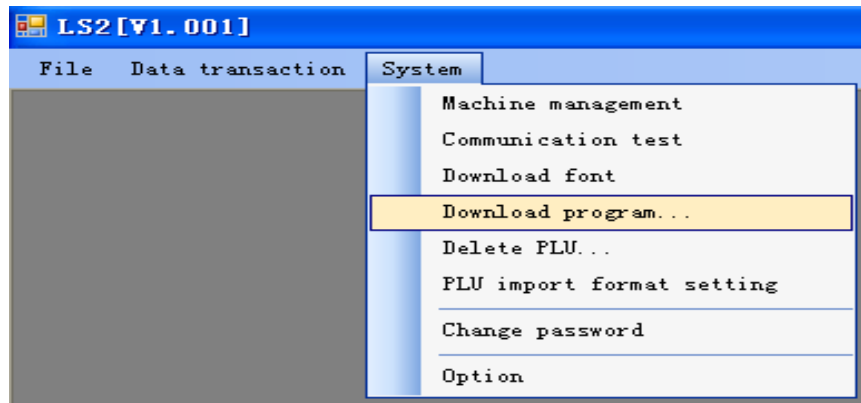

3 How to update program

Double click LS2.exe and confirm the PC connect with scale well.

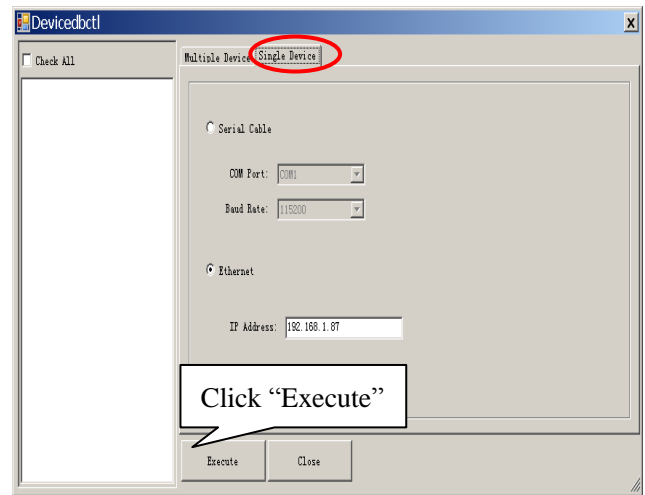

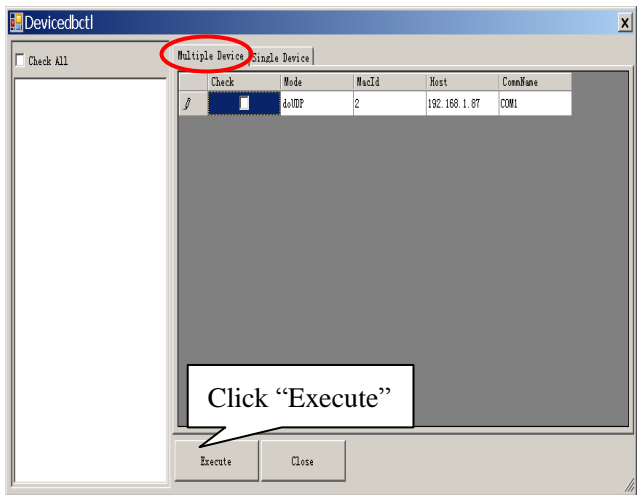

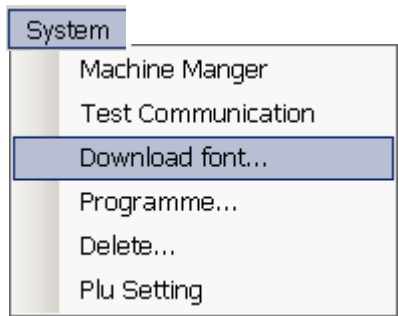

Choose and click “System---download program...”

Number	Name	Status	Progress	Machine...	Mode	Exception reason
4	Be downloading progr...	dtoNULL		0	doUDP	0

4 How to download Font

Double click LS2.exe and confirm the PC connect with scale well.
 Choose and click "System---Download font..."

5 Label

5.1 Menu Column Introduction

◆ File menu

New: create a new label. The same as the short cut icon 

Edit: Edit the label type and size

Open: Open a label that you have edited and saved. The same as the short cut icon 

Save and Save as: save the label or save the label as other name or to other route. The same as the short icon  and 

Preview: Preview the label to check the effect.

Download: Download the label to the scale. This function is the same as the short cut icon 

Upload: Upload the label from scale to PC. This function is the same as the short cut icon 

◆ Edit menu

Undo: Return last step operation. This function is the same as the short cut icon in tool boor 

Redo: This function is the same as the short cut icon in tool bar 

◆ System menu

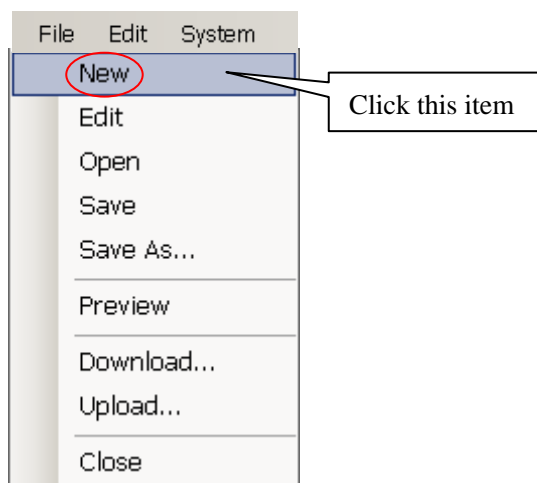

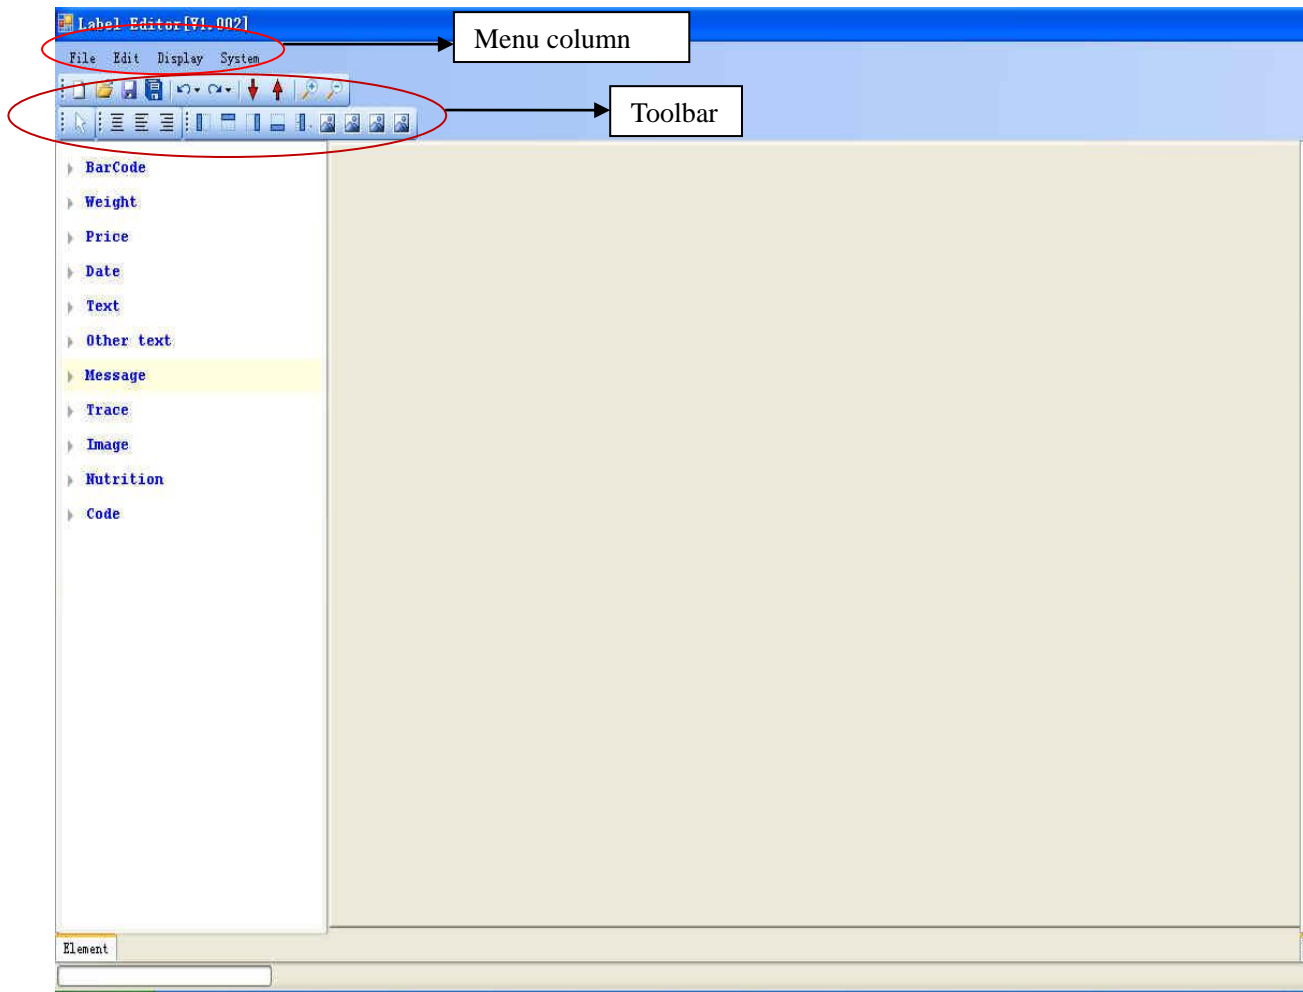

Machine Manger: Manage machine

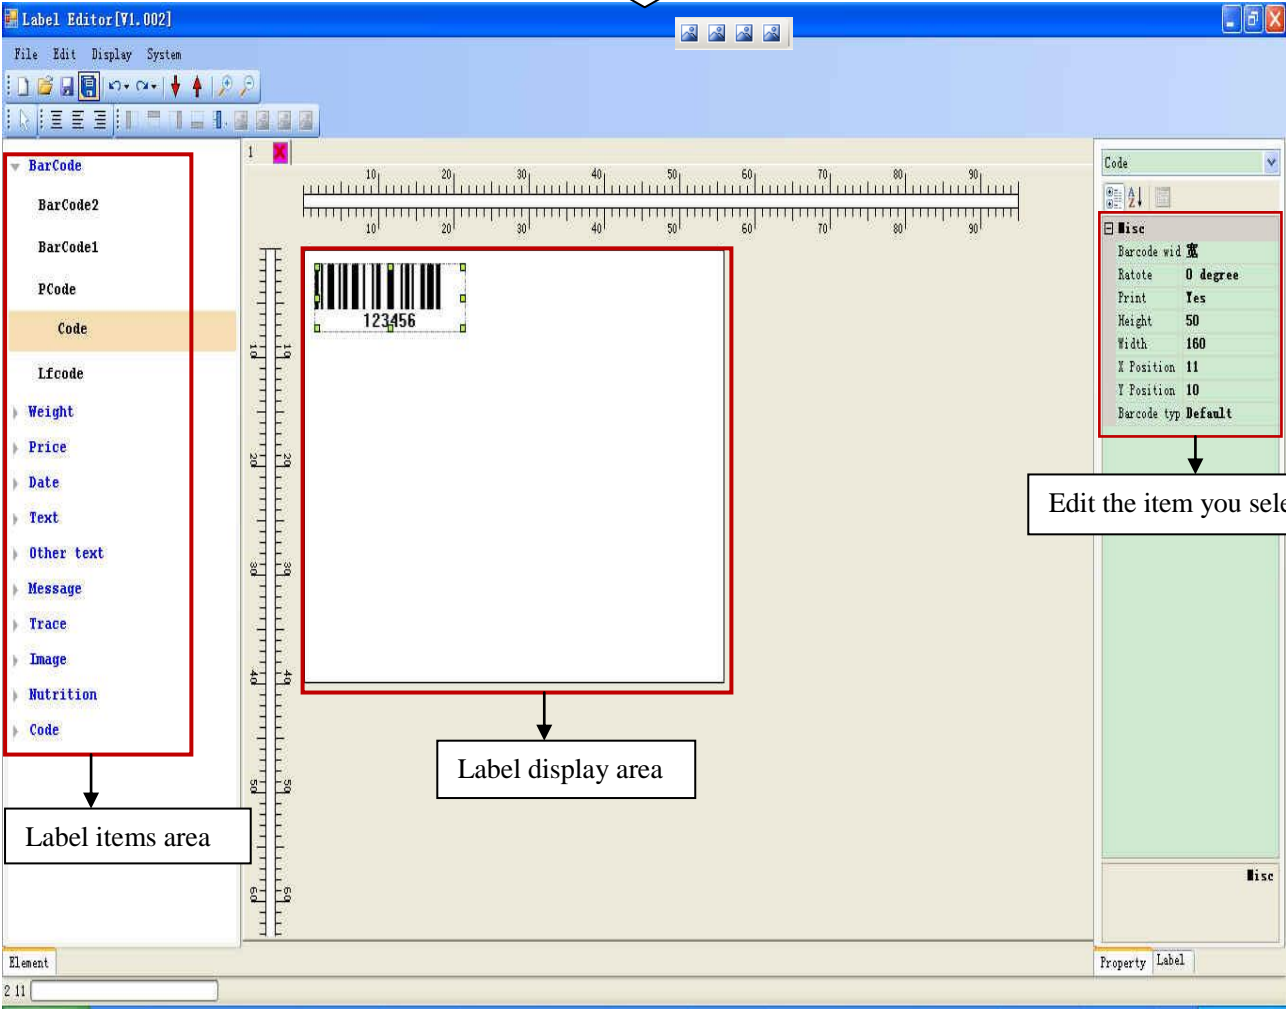

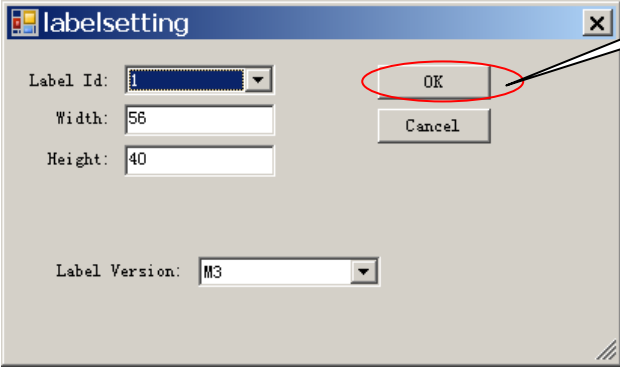

Custom barcode: set customer barcode

5.2 How to make label

Double click labelApplication1.exe, and then you will see below interface:

Click "ok" key

Label display area

Label items area

Edit the item you selected

Basic label editing steps:

- 1) Click the item that you needed in label items area.
- 2) Click the mouse; hold it and drag a box on the label, and then you can see the item will be displayed on the label.
- 3) Make the item in selected state.
- 4) Use your mouse to get close to the border, when the mouse became the icon like below image A, B or C, means you can adjust the width or length. If the mouse became the icon like image C, means you can adjust the whole border. If the mouse became the icon like image D, means you can move the item to any position.

For example:

Image A

Use your mouse get close to the boarder till the mouse became the icon, and then click the mouse, hold it and drag the mouse till you get satisfied of the width.

Image B

Use your mouse get close to the boarder till the mouse became the icon, and then click the mouse, hold it and drag the mouse till you get satisfied of the length.

Image C

Use your mouse get close to the boarder till the mouse became the icon, and then click the mouse, hold it and drag the mouse till you get satisfied.

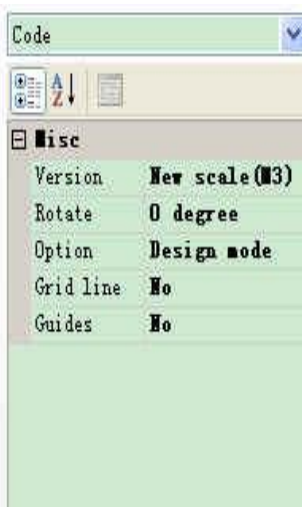

Image D

Use your mouse get close to the boarder till the mouse became the icon, and then click the mouse, hold it and drag the mouse to move the item.

950001	22	950001	tomato			Kg	10	
950002		950002	cucumber			Kg	11	
950003		950003	eggplant			Kg	12	
950004	22	950004	bean			Kg	13	
950006	0	950006	carrot			Kg	15	

PLU Edit

Menu: New, Edit, Save, Save As, Delete, Cancel, Refresh, First, Previous, Next, Last, Send, Open, Setting, Close

Form fields: PLU code, Department number, Group number, Code, Name 1, Name 2, Name 3, Unit, Unit price, Barcode, BarCode1, Label, Added label, Date and time (Package date, Package time, Date of manufacture, Expiration period), Tare (Mode, Tare, Tare/Table, Ice content), Package type, Package weight, Package range, Change price.

PLU Edit

Menu: New, Edit, Save, Save As, Delete, Cancel, Refresh, First, Previous, Next, Last, Send, Open, Setting, Close

Table: Same as the first screenshot.

Form fields: Same as the first screenshot.

Callouts:

- Text editing area: Points to the 'Text' tab.
- Discount editing area: Points to the 'Discount' tab.
- Datetime editing area: Points to the 'Date and time' section.
- Tare editing area: Points to the 'Tare' section.
- Package editing area: Points to the 'Package type', 'Package weight', and 'Package range' fields.
- PLU editing area: Points to the 'PLU code', 'Department number', 'Group number', 'Code', 'Name 1', 'Name 2', 'Name 3', 'Unit', 'Unit price', 'Barcode', 'BarCode1', 'Label', and 'Added label' fields.

1) PLU toolbar introduction

New: Click it to add a new PLU.

Edit: Click it to modify the PLU information.

Save/Save as: save the PLU information that you have edited.

Delete: delete the PLU information.

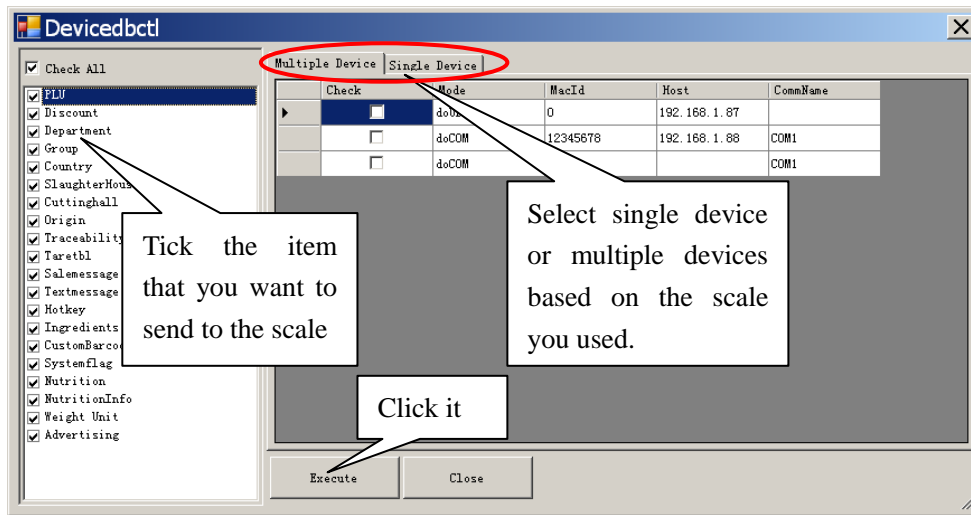

Cancel: click it to cancel the editing.

Refresh: when you upload the PLU data to PC, click this icon; the system will update the information at once.

First: click this icon, the first PLU will be in selected state.

Last: click this icon; the last PLU will be in selected state.

Send: click this icon and then you will see below interface:

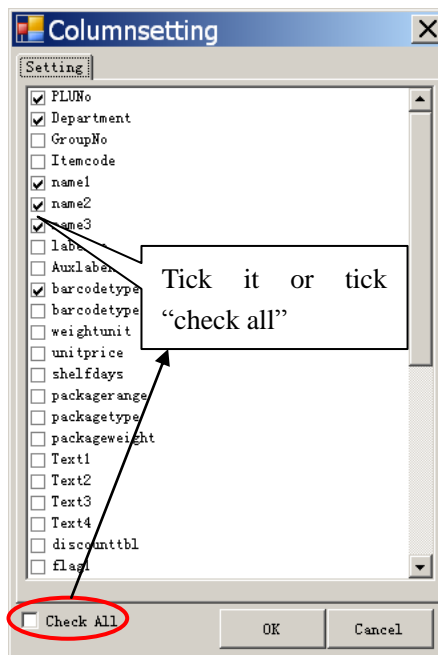

Tick the item that you want to send to the scale

Select single device or multiple devices based on the scale you used.

Click it

Open: Click this icon to open the PLU information that you have edited.

Setting: the command is used to set the PLU column. Click it and then you will see below interface:

Tick it or tick "check all"

Check All

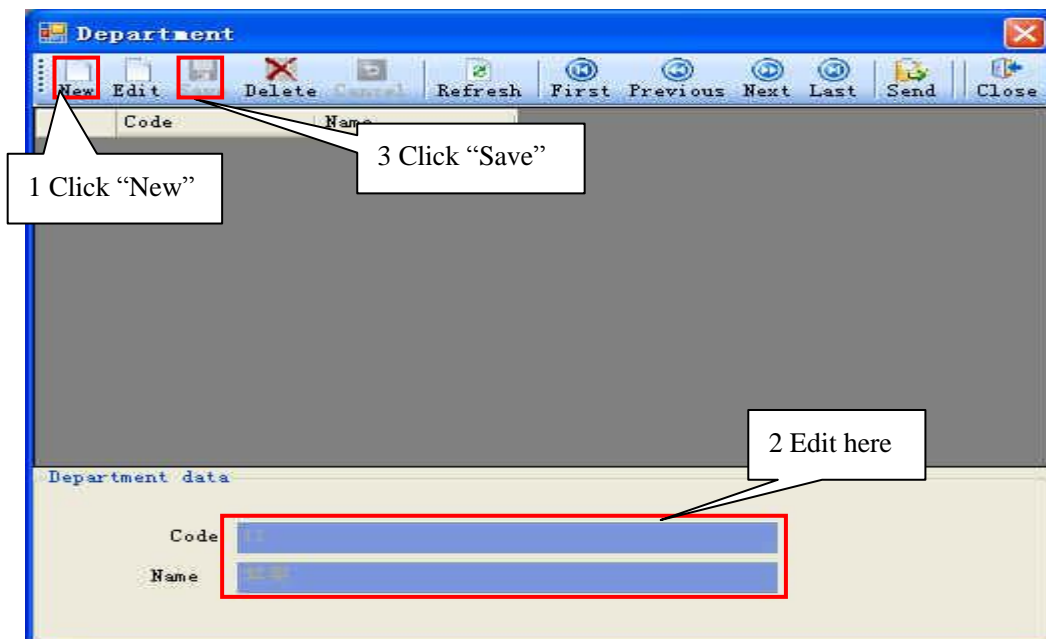

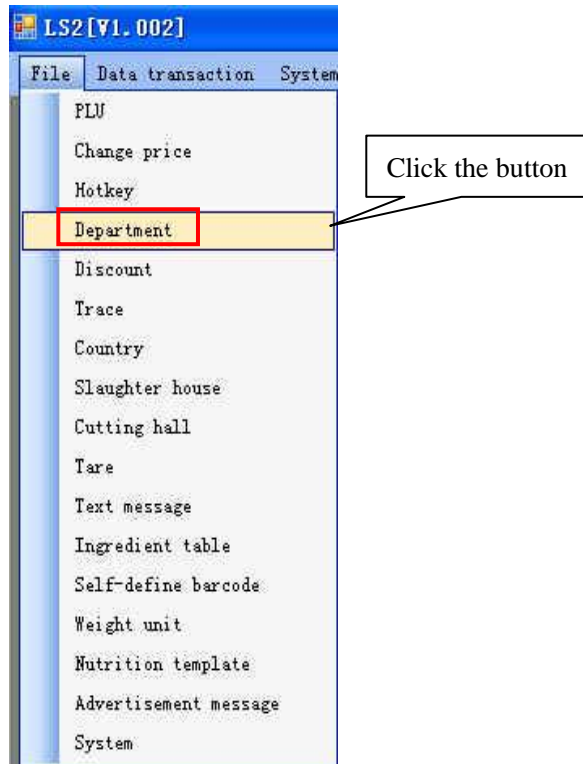

Close: click this icon to exit the interface.

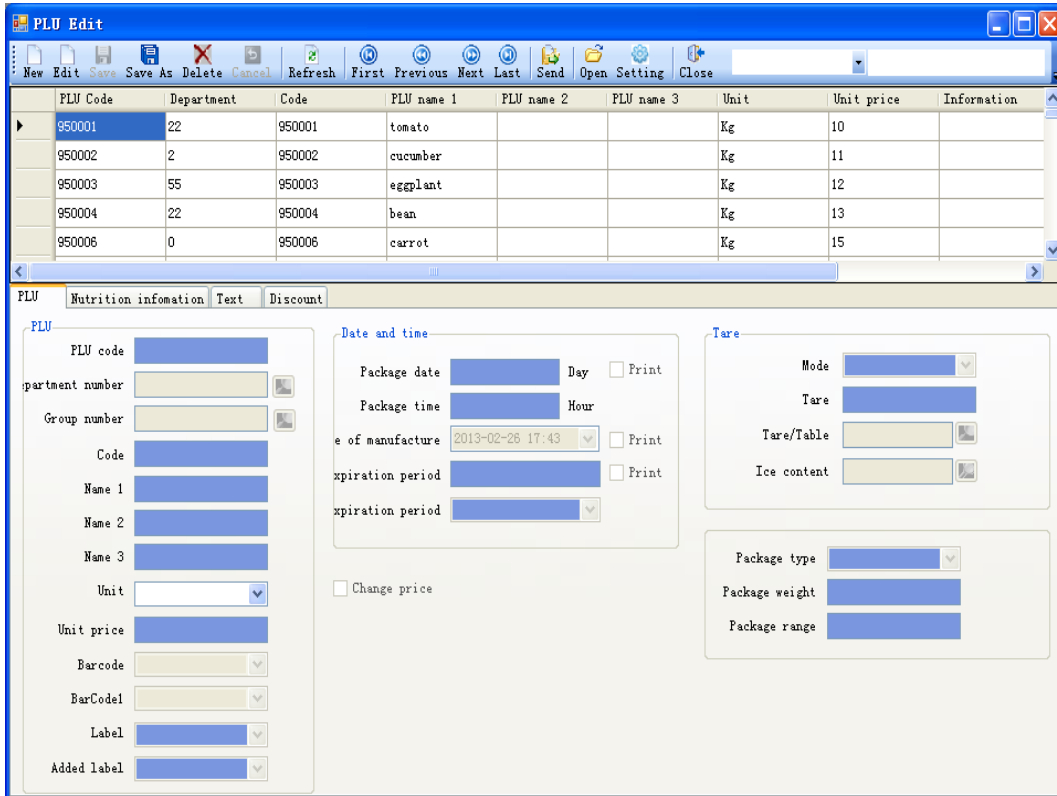

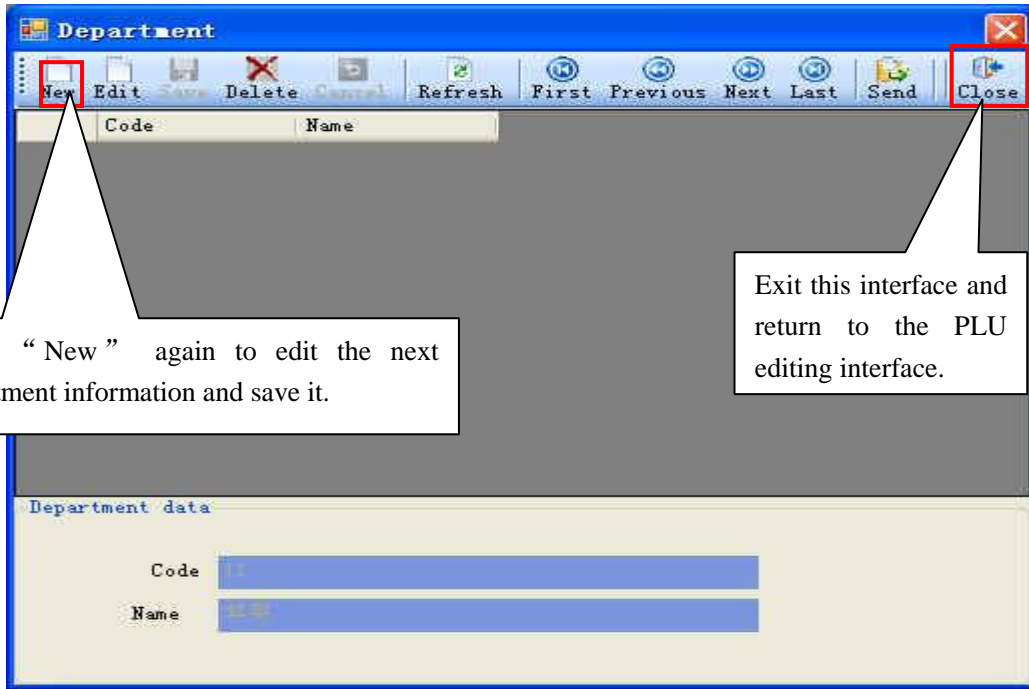

Search: input LFcode or name to search PLU.

◆ LFcode: input LFcode directly.

◆ **Department No.:** You can't input the **department no** in this box directly. The department No. should be edited in other interface firstly.

Choose and click "File----Department"

Department: 

Click this icon

Select

Number

OK Cancel

Code	Name
------	------

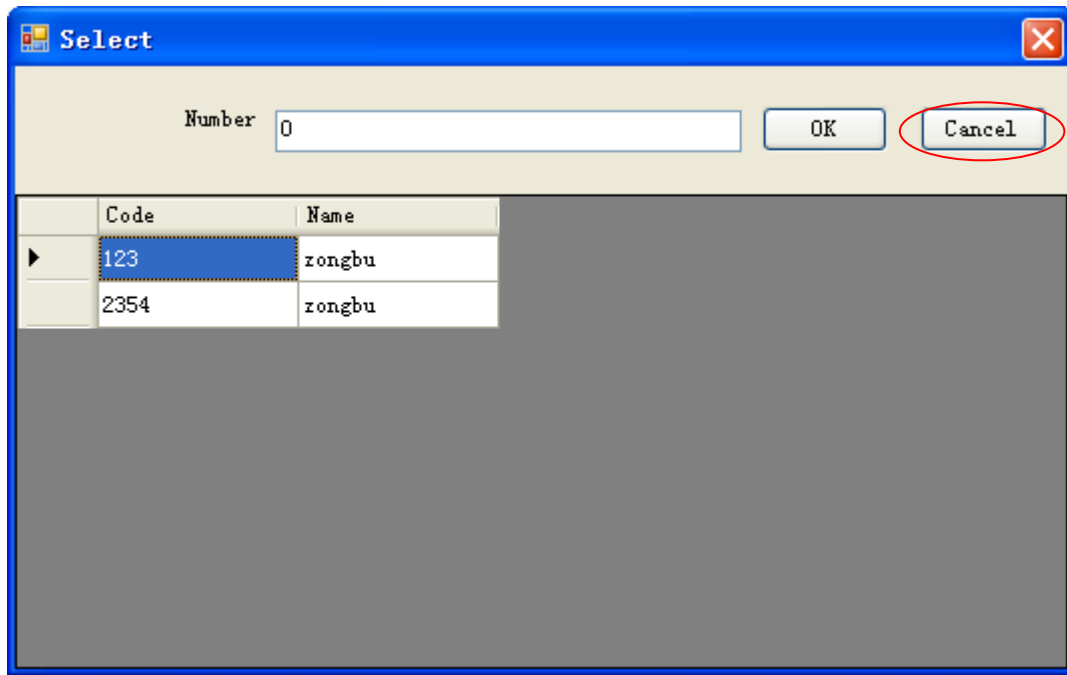

Method 1: Select any line and then click "OK" button

Method 2: Input Department No. here and then click "OK" button.

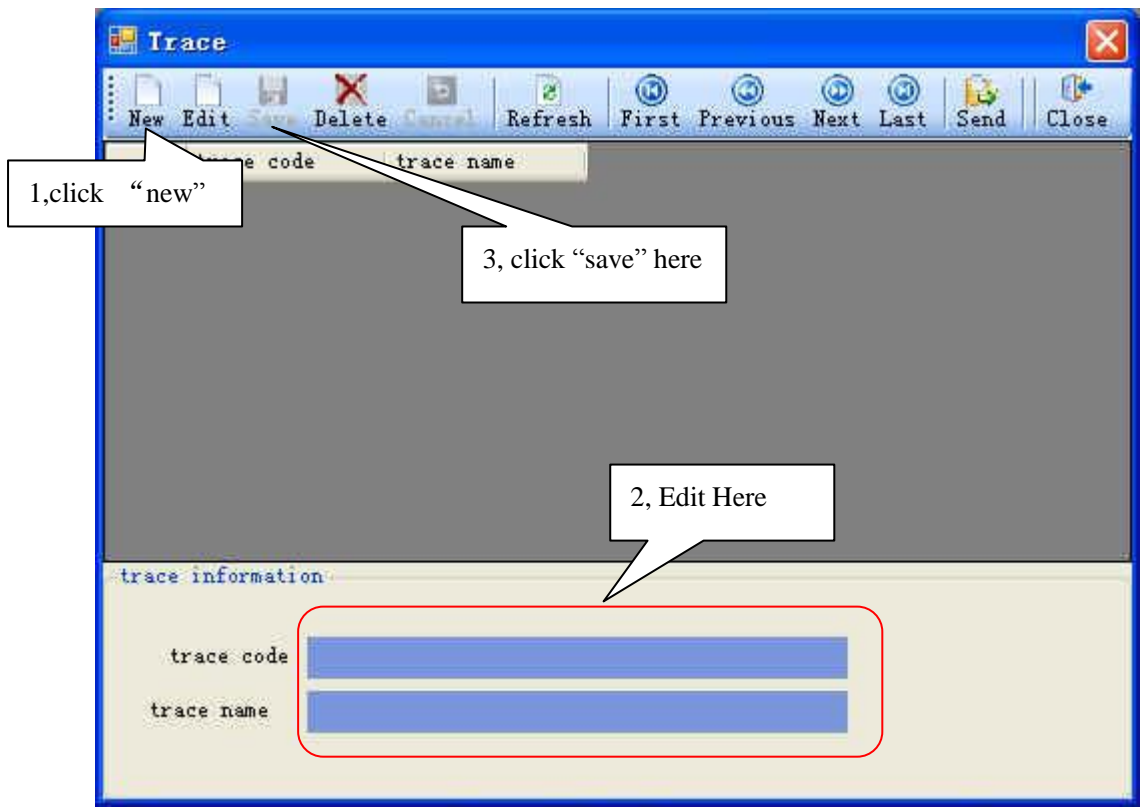

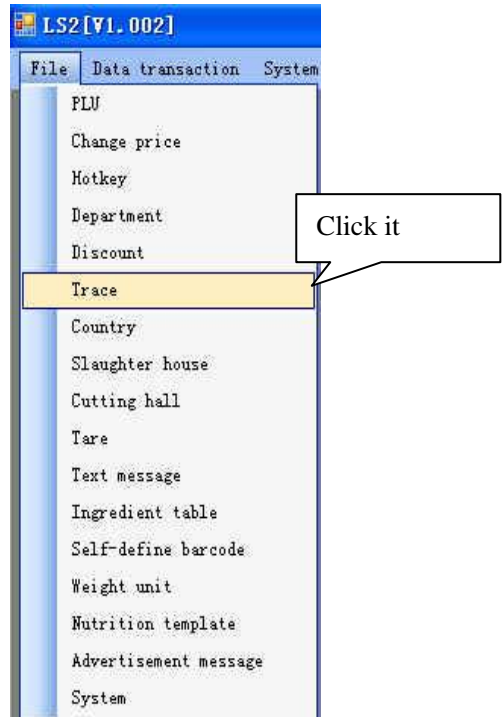

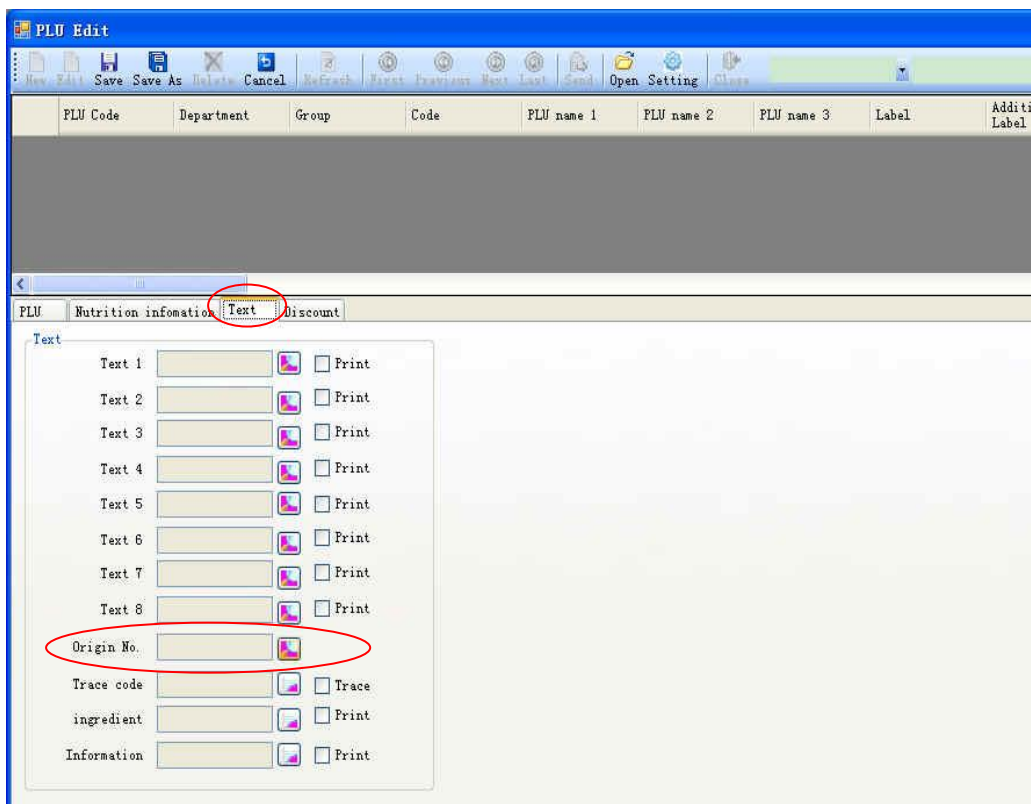

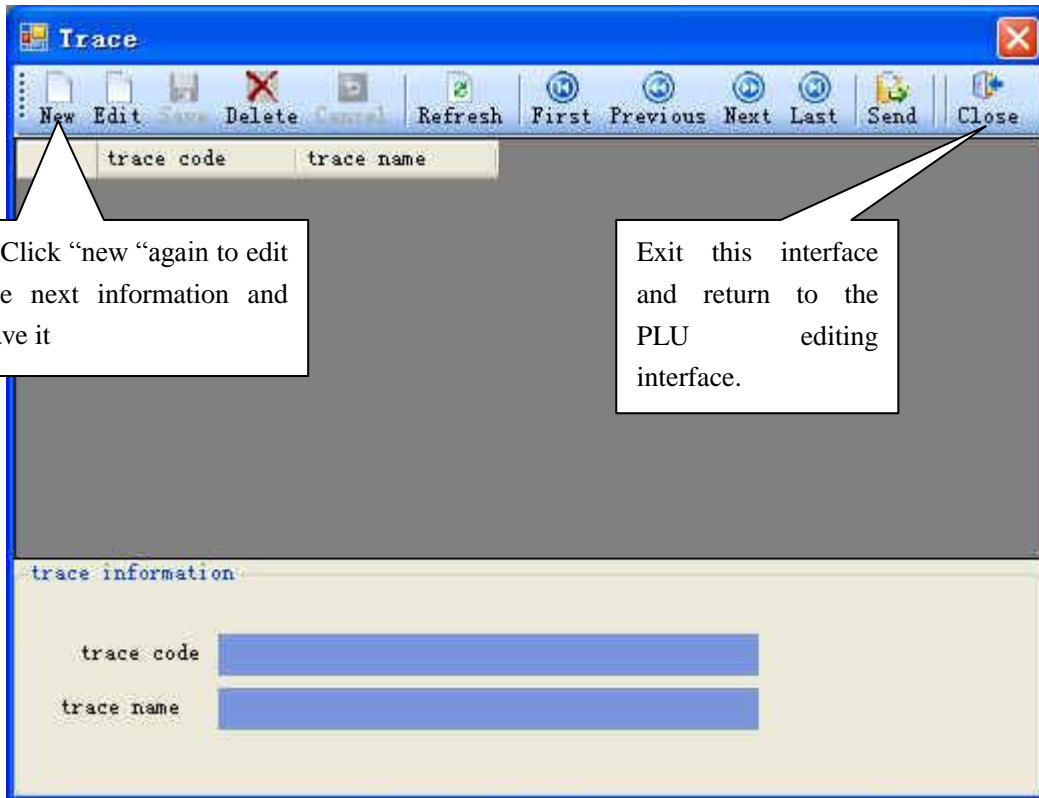

Department No. 

If this department No. is not you wanted, you can click the button  and then click "Cancel"

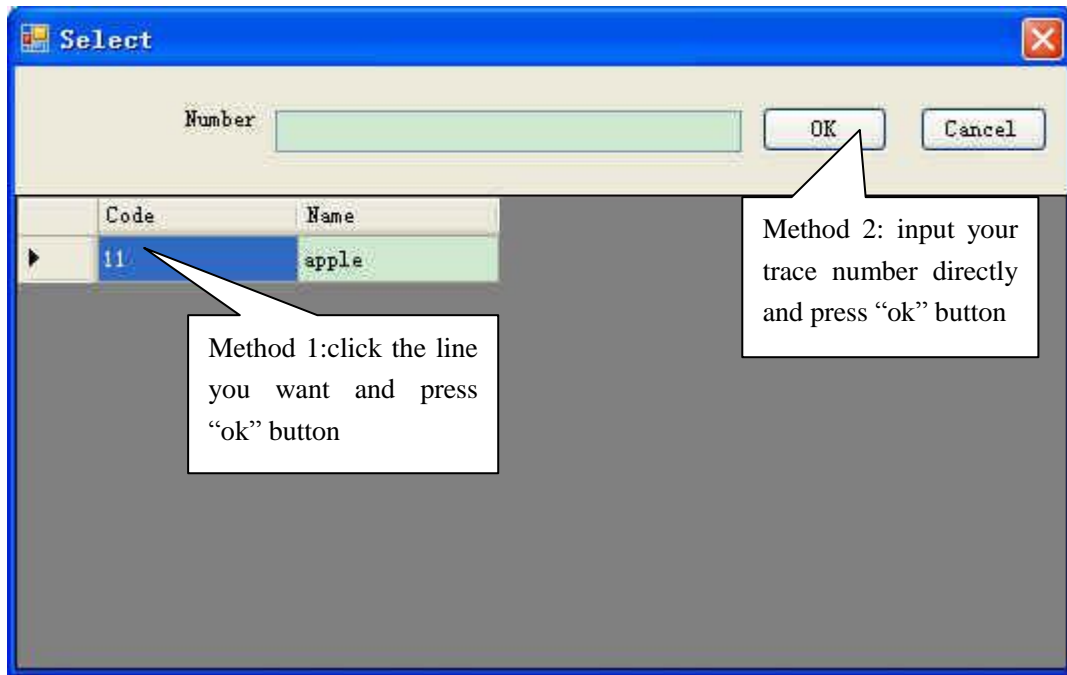

◆ Trace :

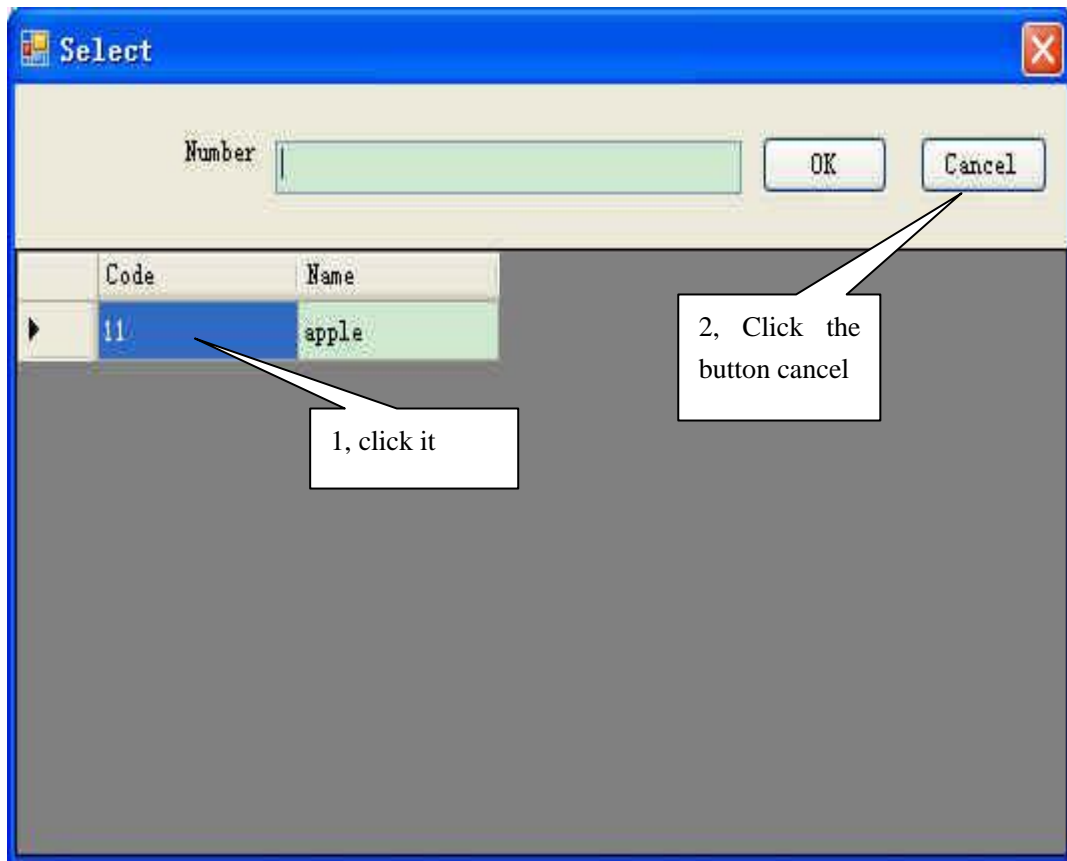

Click it

If you want to cancel the trace information

6.2 Text editing

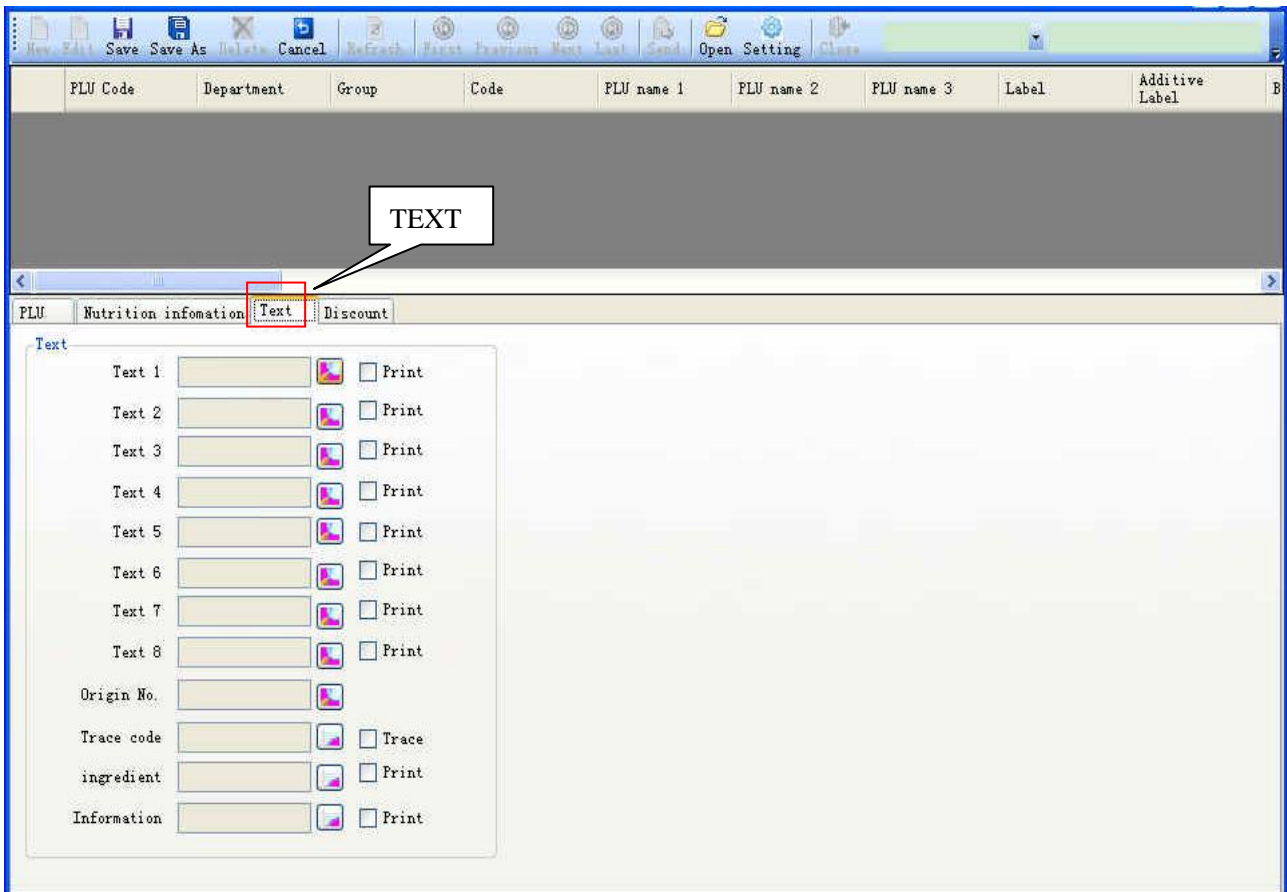

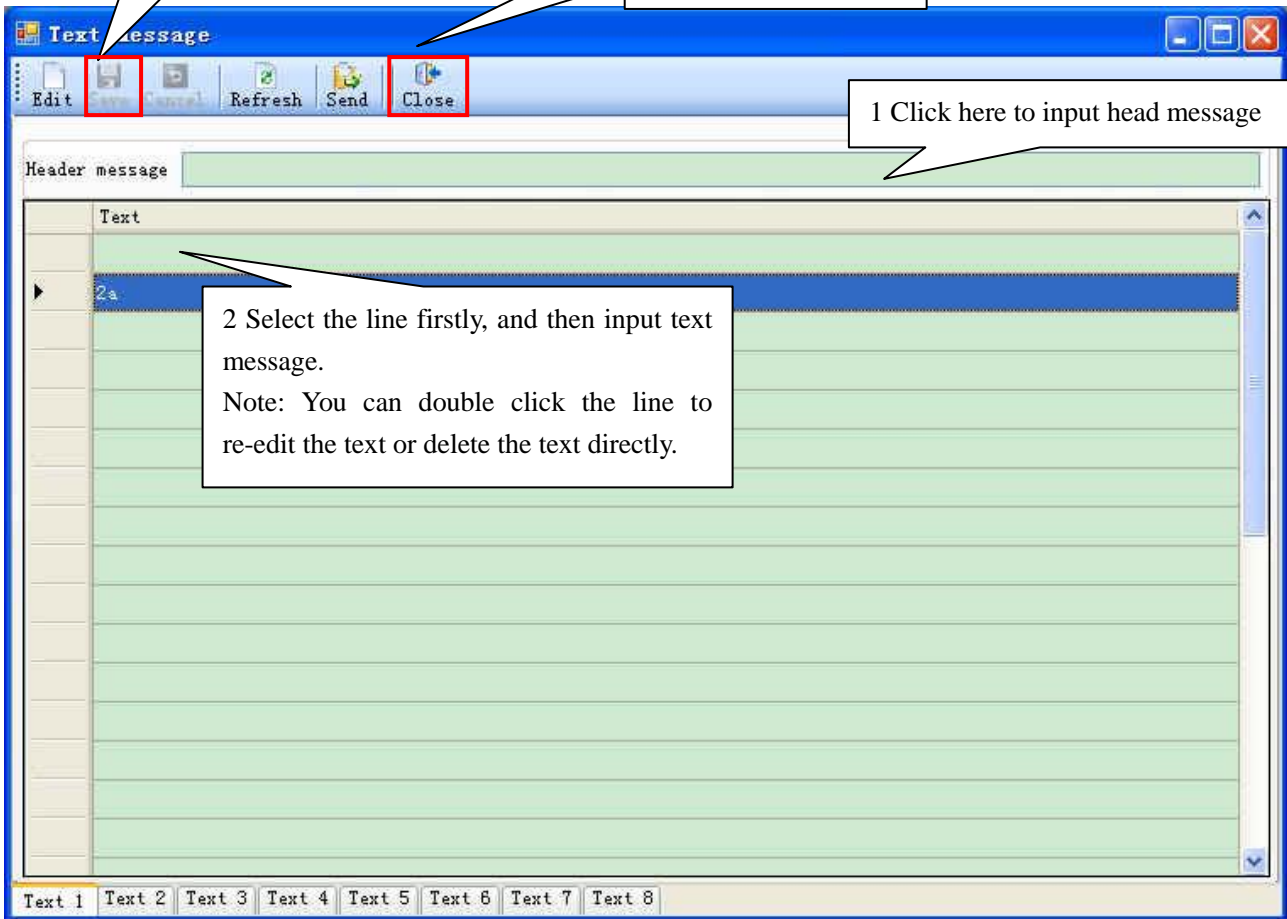

- ◆ Text1 & Text2 & Text3 & Text4: You can't input text information in this box directly. The Text information should be edited in other interface firstly.

Choose and click "File----Text Message"

Then, you can Click the text that you want to edit on PLU interface.
For example:

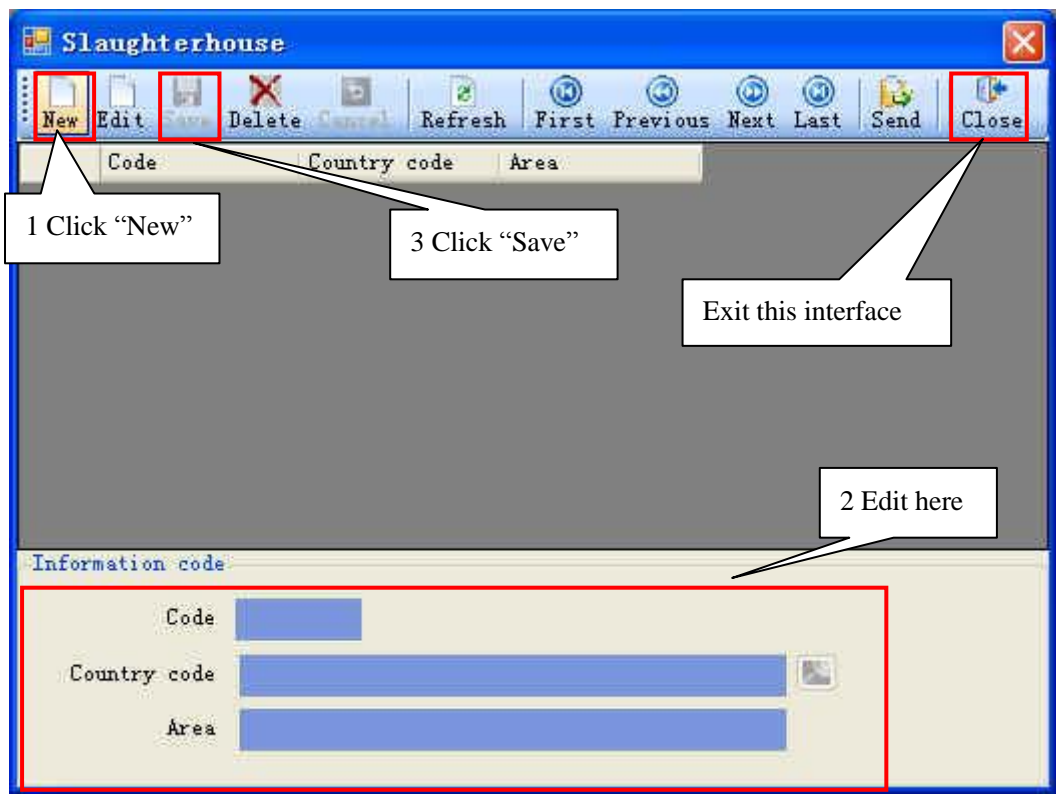

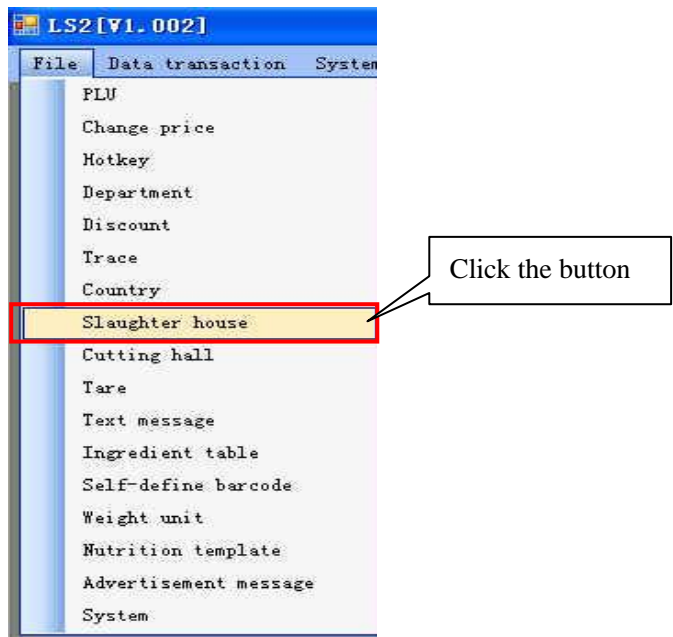

◆ **Country.** : Choose and click "File----Country"

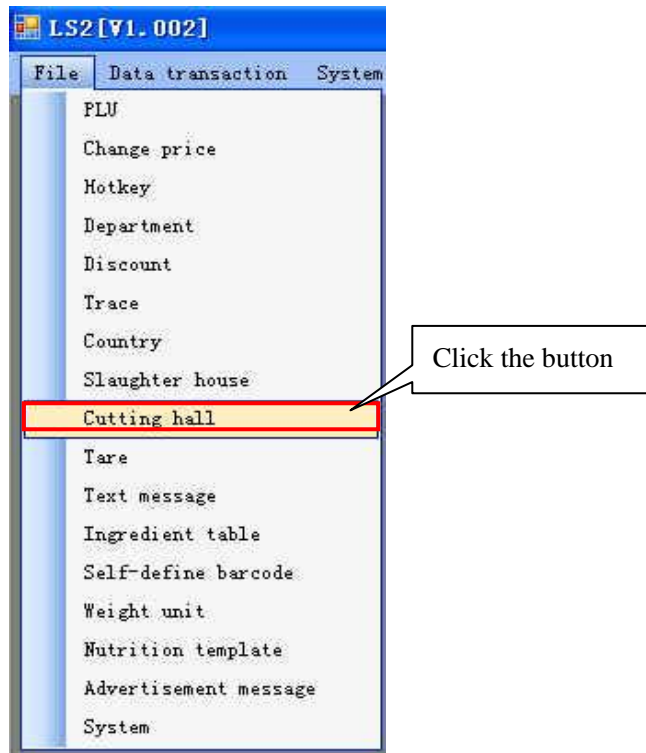

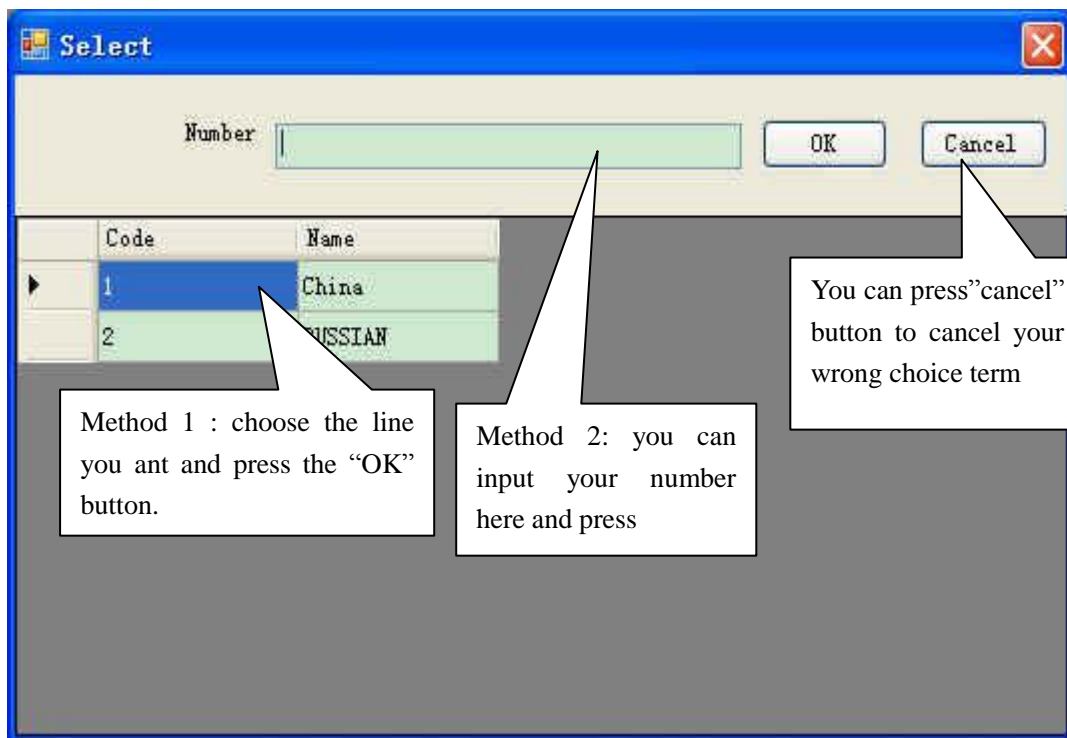

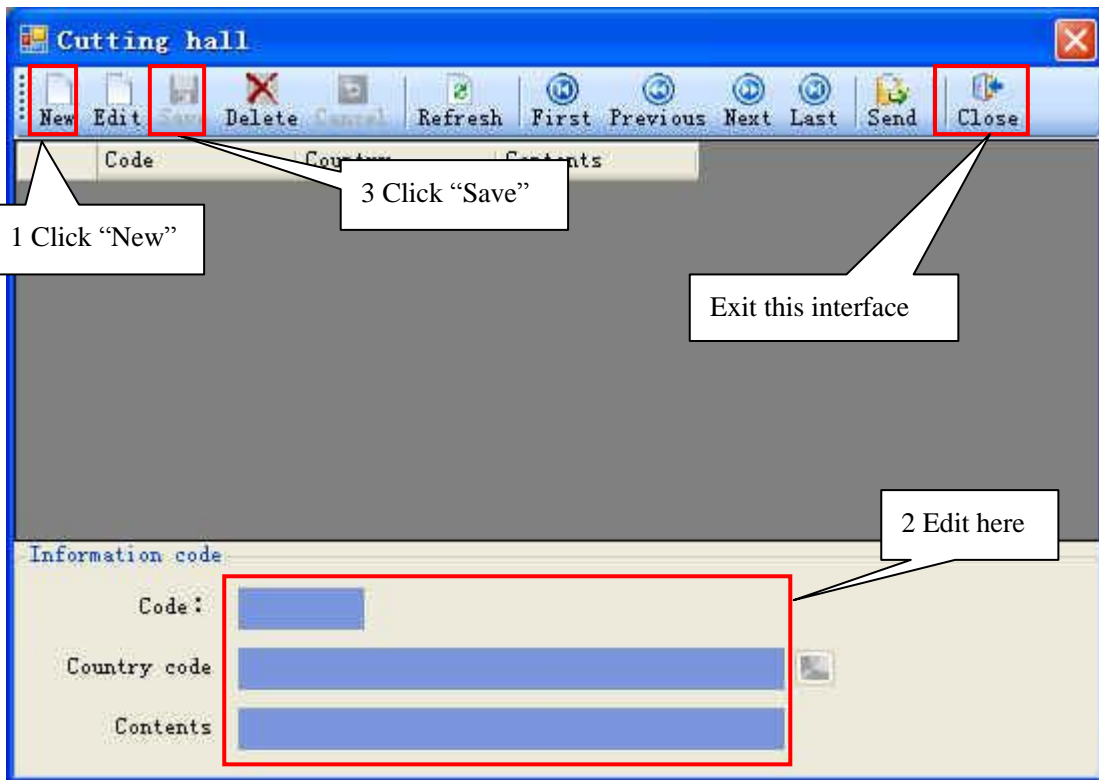

- ◆ This function is only used for the PLU traceability.
Choose and click “File----Slaughterhouse”

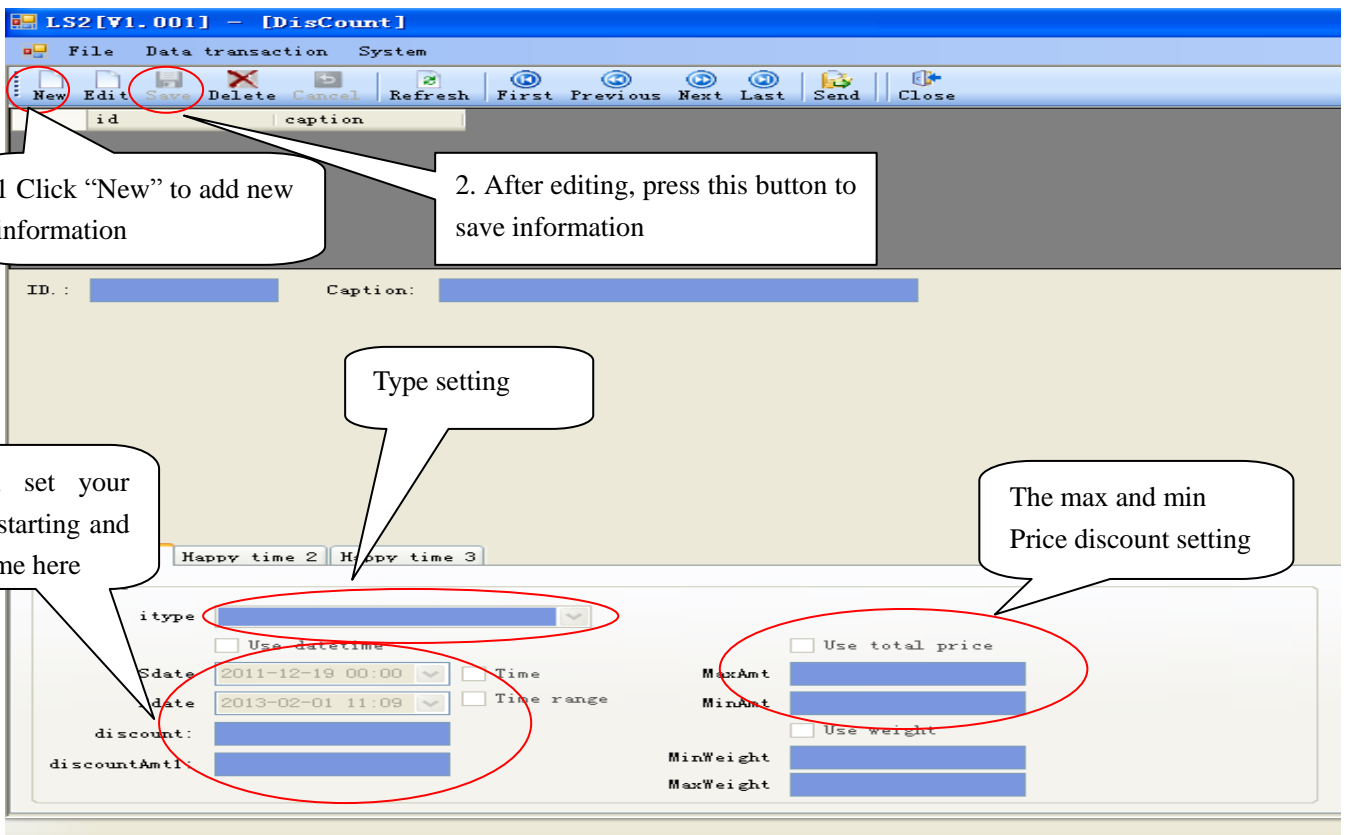

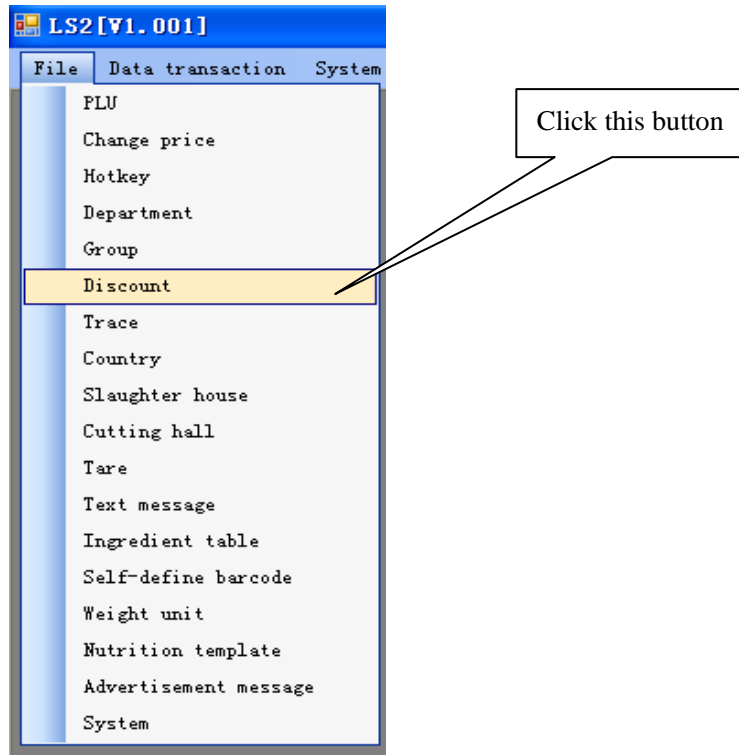

- ◆ This function is only used for the PLU traceability.
Choose and click “File---Cutting hall”

6.3 Discount information editing

6.4 Link discount information editing

Link discount

Discount1

Discount2

Input discount information directly

◆ Mode:

Discount

Mode

Discount table

Discount

Click this button to choose the mode

6.5 Date time information editing

you can edit information on PLU interface directly.

Datetime

PackedDate

PackedTime

ProducedDate 2012-10-30 10:17

Shelf life

Shelf life in By DAY

Print

Click the button to choose the date

Click the button to choose by date or by hour

6.6 Tare information editing

Tare

mode

TareWeight

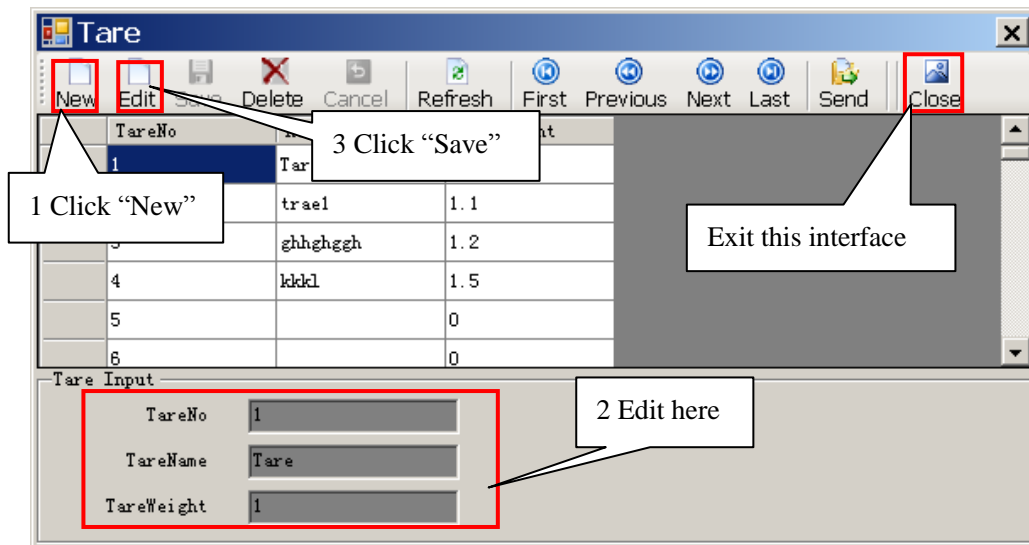

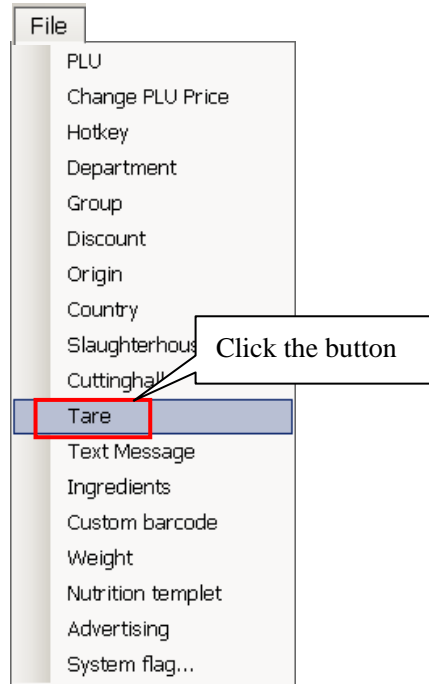

Tare / Tare No.

Click the button to choose the mode

Input tare weight directly

Click the button to choose tare number

Tare/Tare No.: Choose and click “File----Tare”

You can add more information by pressing “new” button again.

6.7 Package information editing

The screenshot shows a software application window titled "Data transaction System". The interface includes a menu bar with "File", "Data transaction", and "System". Below the menu bar is a toolbar with icons for "New", "Edit", "Save", "Save As", "Delete", "Cancel", "Refresh", "First", "Previous", "Next", "Last", "Send", "Open", "Setting", and "Close".

The main area features a table with the following columns: "PLU Code", "Department", "Group", "Code", "PLU name 1", "PLU name 2", "PLU name 3", "Label", "Additive Label", and "Barcode".

Below the table, there are tabs for "PLU", "Nutrition information", "Text", and "Discount". The "PLU" tab is active, showing a form for editing package information. The form is divided into several sections:

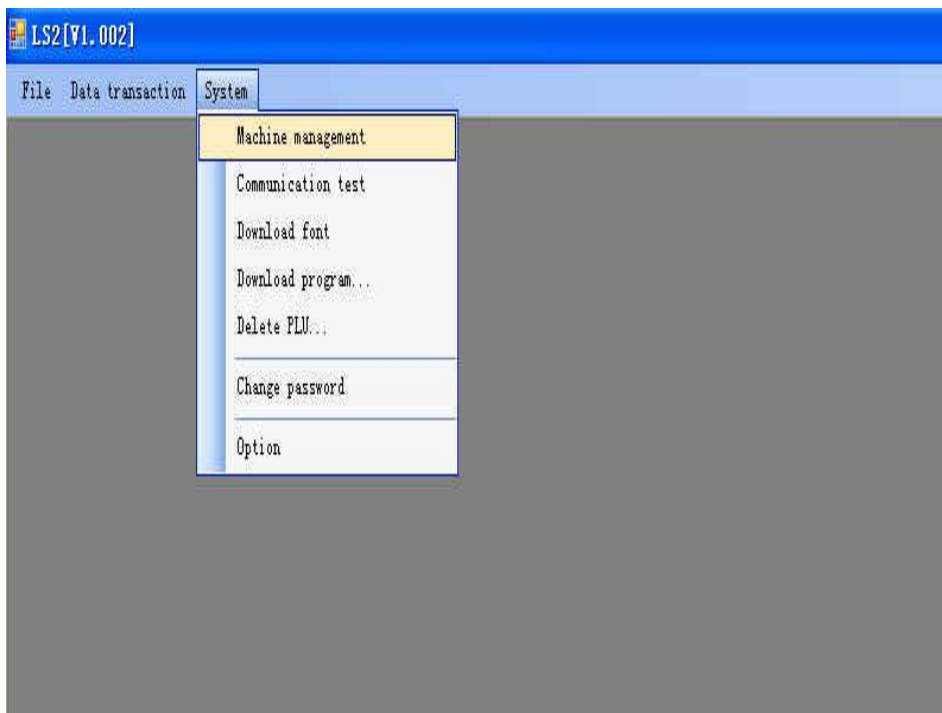

- PLU**: Fields for PLU code, Department, Code, Name 1, Name 2, Name 3, Unit, Unit price, Barcodes (Barcode1, Barcode2), Labels (Label, Added label), and a "Print" checkbox for the Added label.
- Date and time** (highlighted with a red box): Fields for Package date (Day), Package time (Hour), production data (2013-04-03 10:58), shelf, Type (By day), and valid days. Each field has a "Print" checkbox.
- Change price**: A checkbox.
- Tare**: Fields for Mode, Tare, Tare/Table, and Ice content.
- Package type**: A dropdown menu set to "NORMAL".
- Package weight**: A text input field.
- Package range**: A text input field.

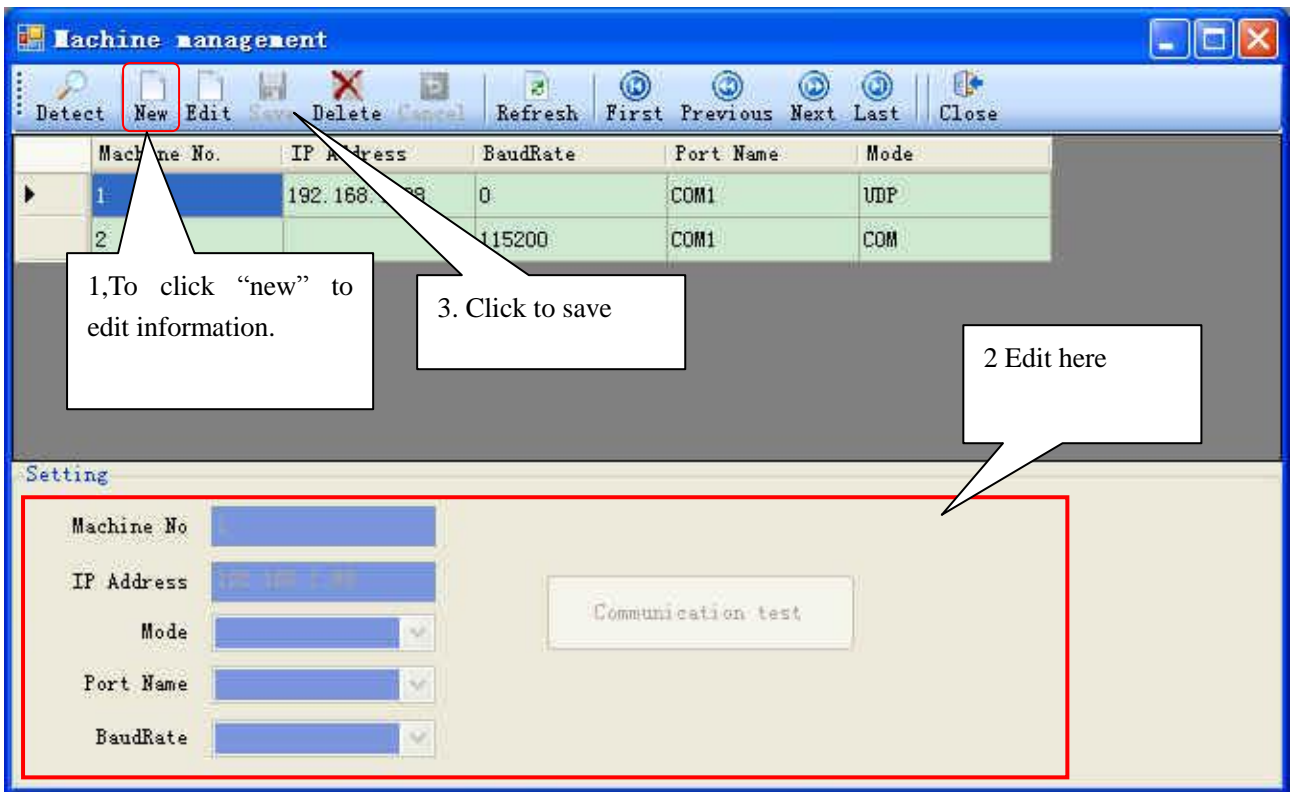

A speech bubble points to the "Date and time" section with the text "Input related information directly".

6.8 System

Double click LS2.exe, and then you will see below interface:

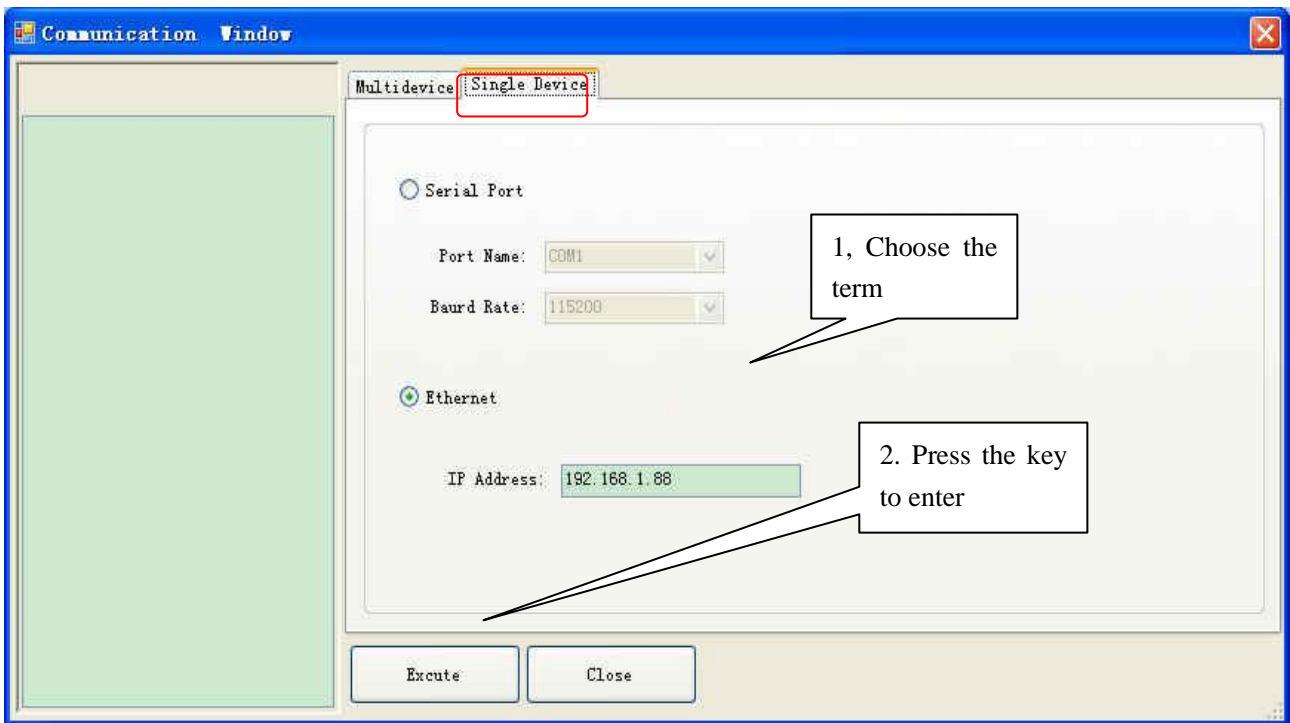

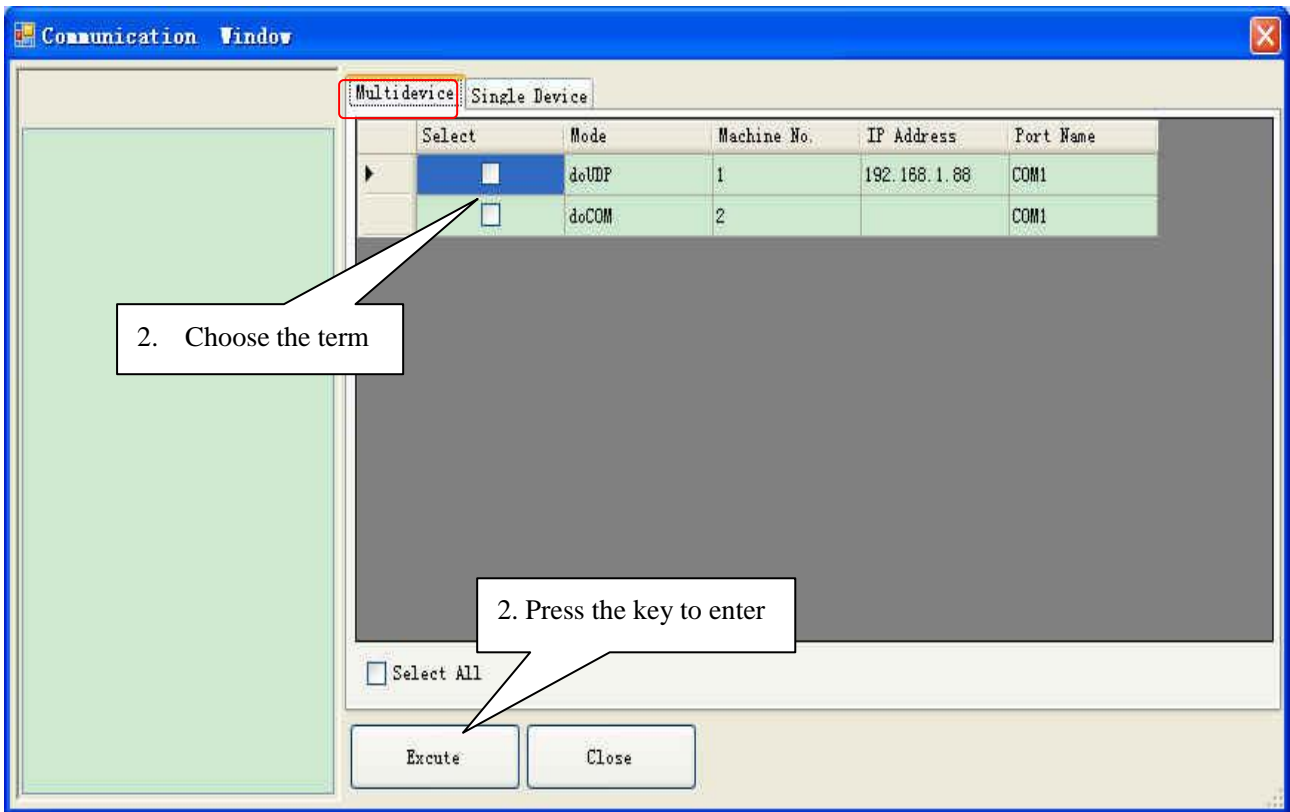

(1) Machine management

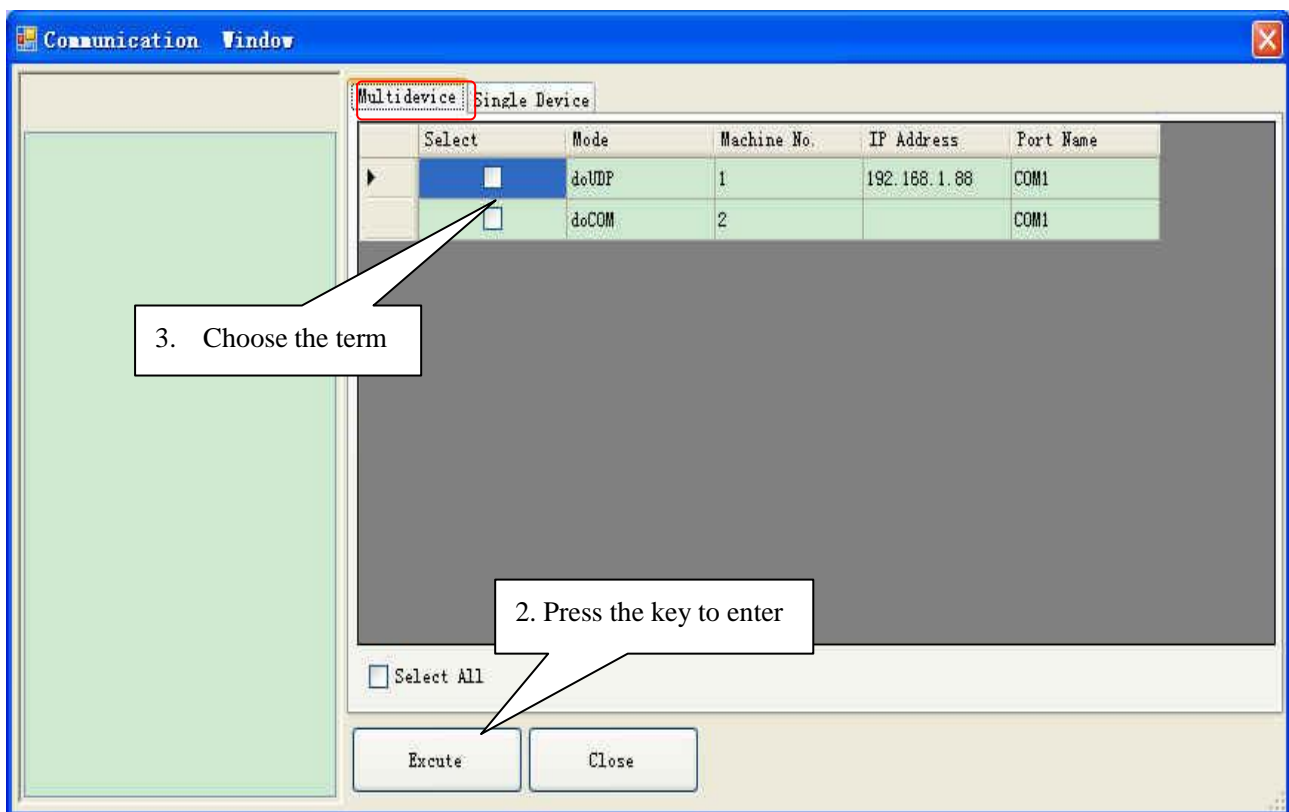

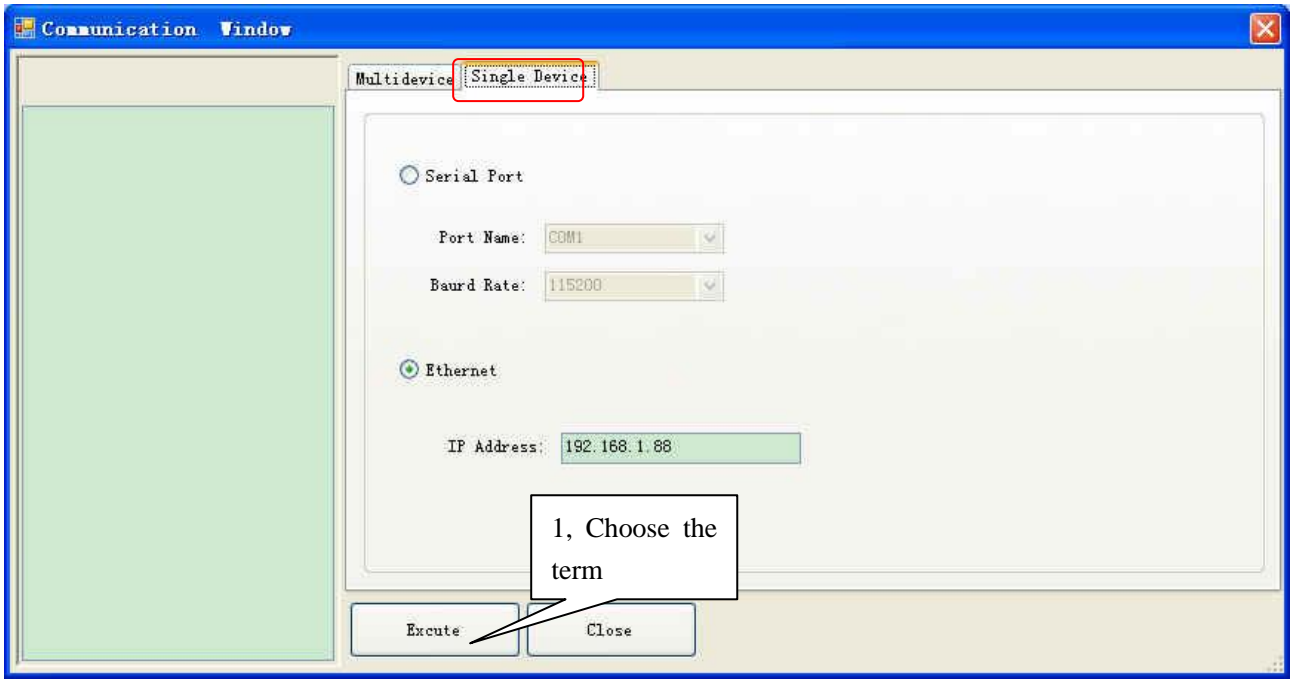

(2) Communication Test

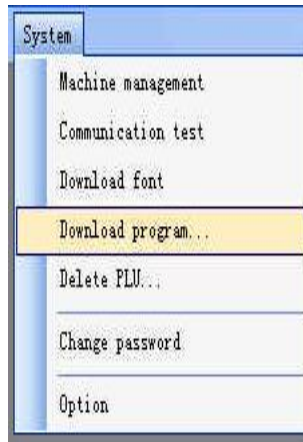

(3) Download Font

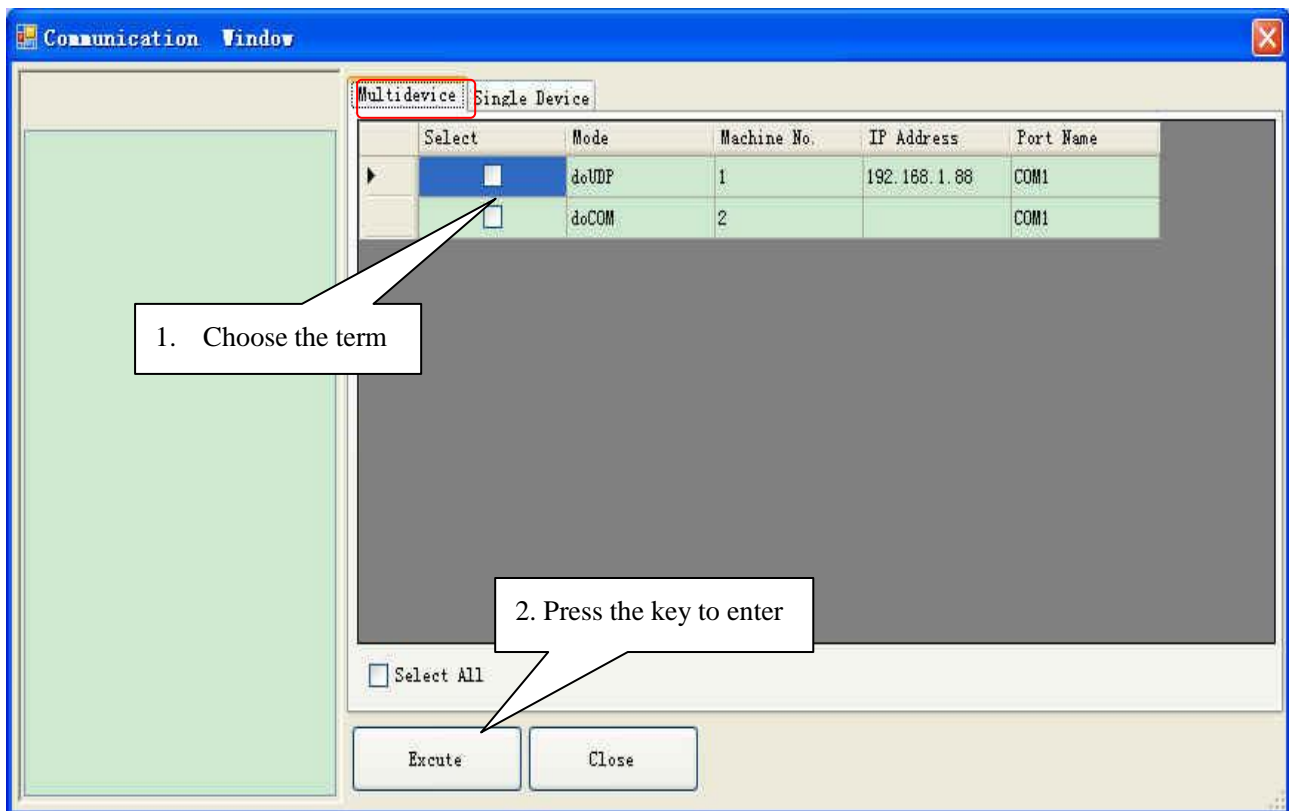

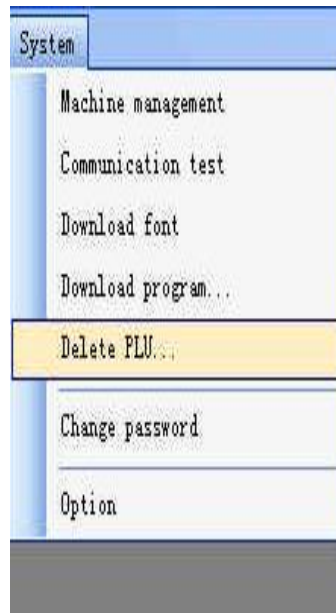

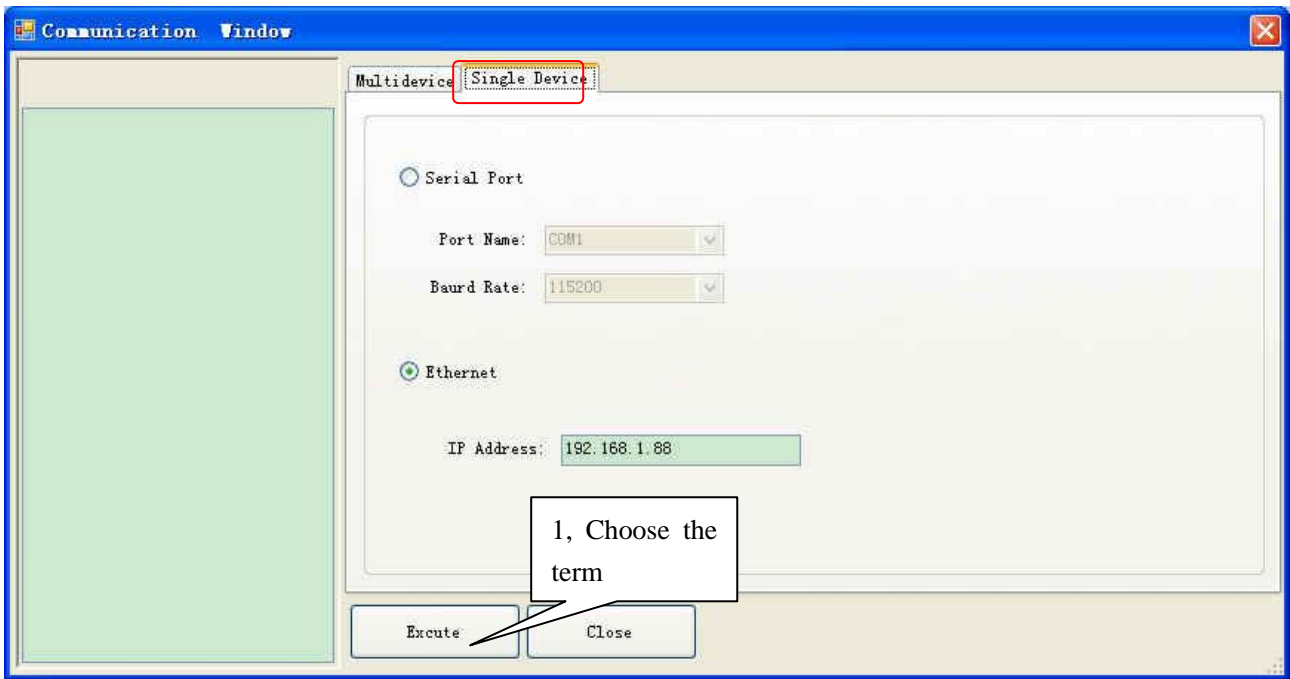

(4) Download program

(5) Delete PLU

(6) Change password

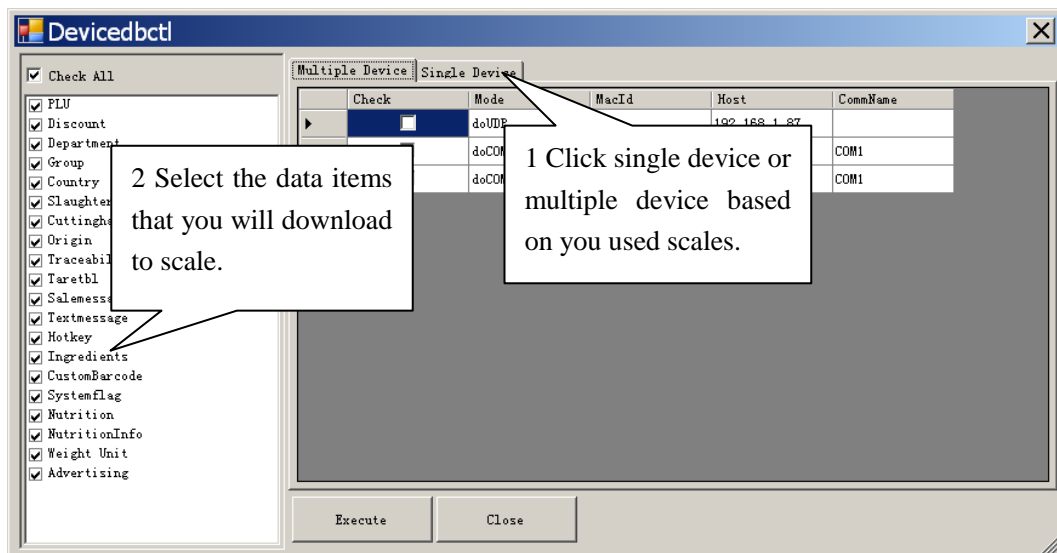

6.9 Data Transaction function

◆ Send data function

This function is used to download data from PC to scale.

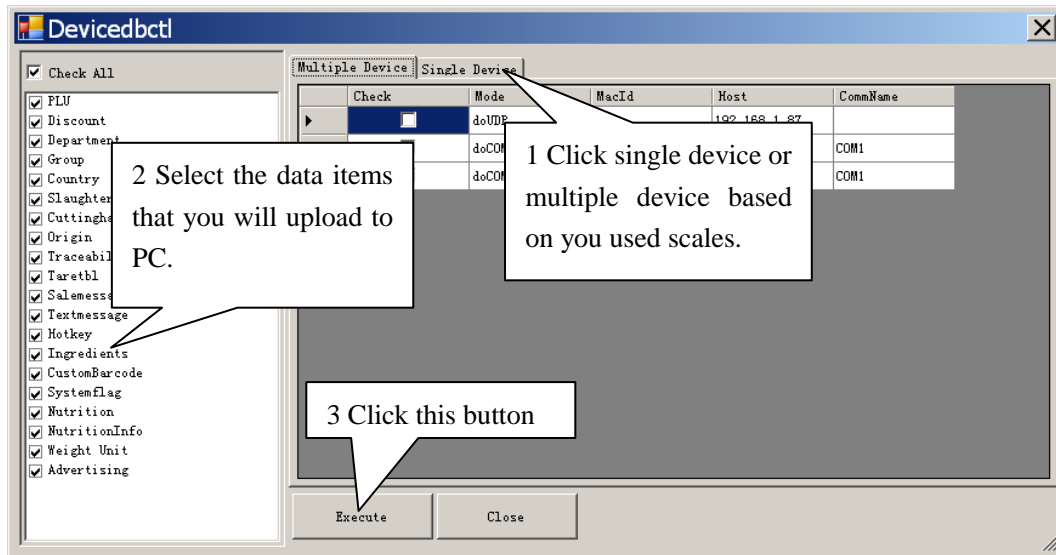

Click “Data Transaction----send data”, and then you will see below interface:

◆ Import data function

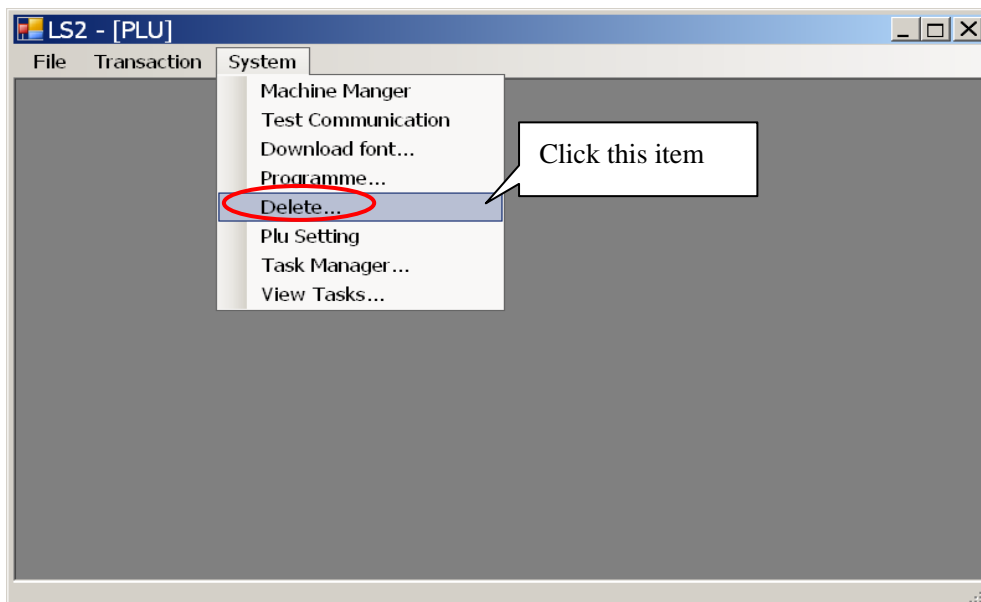

This function is used to upload data from scale to PC.

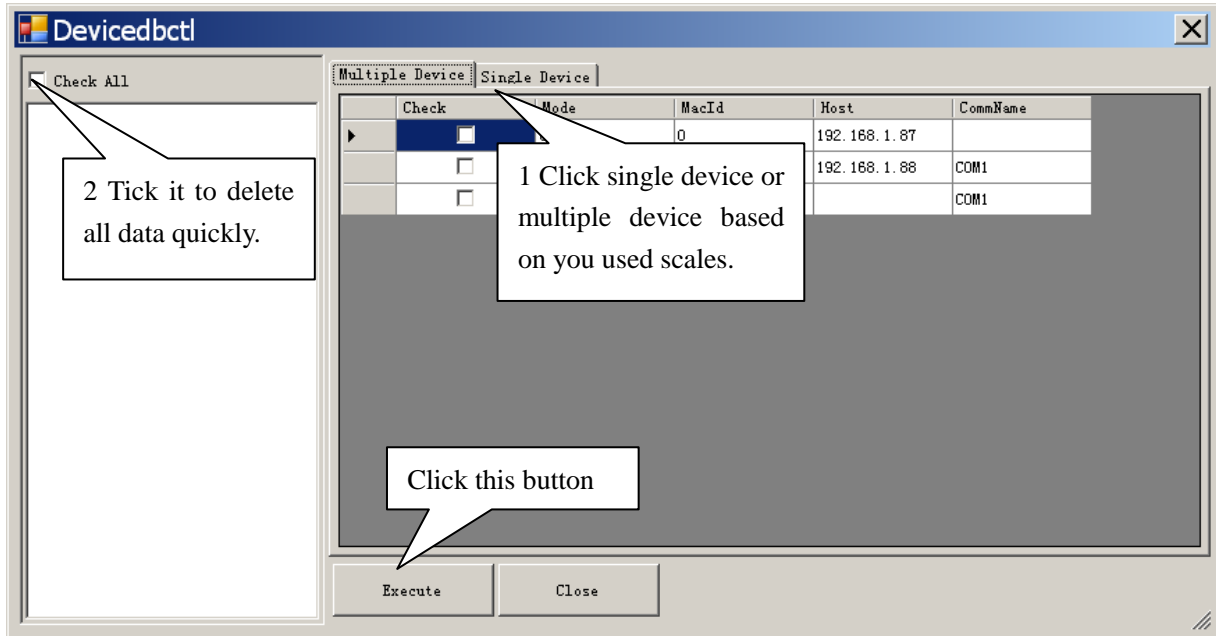

Click “Data Transaction---import ----from device”, and then you will see below interface:

6.10 Delete PLU data function

Choose and click “System—Delete”, and then you will see below interface:

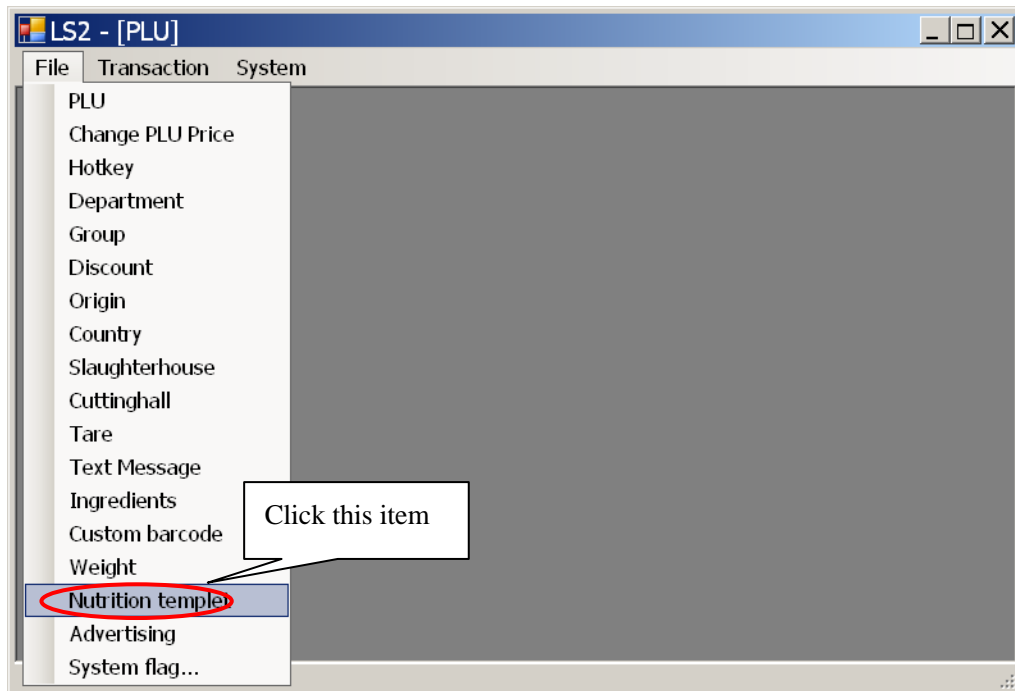

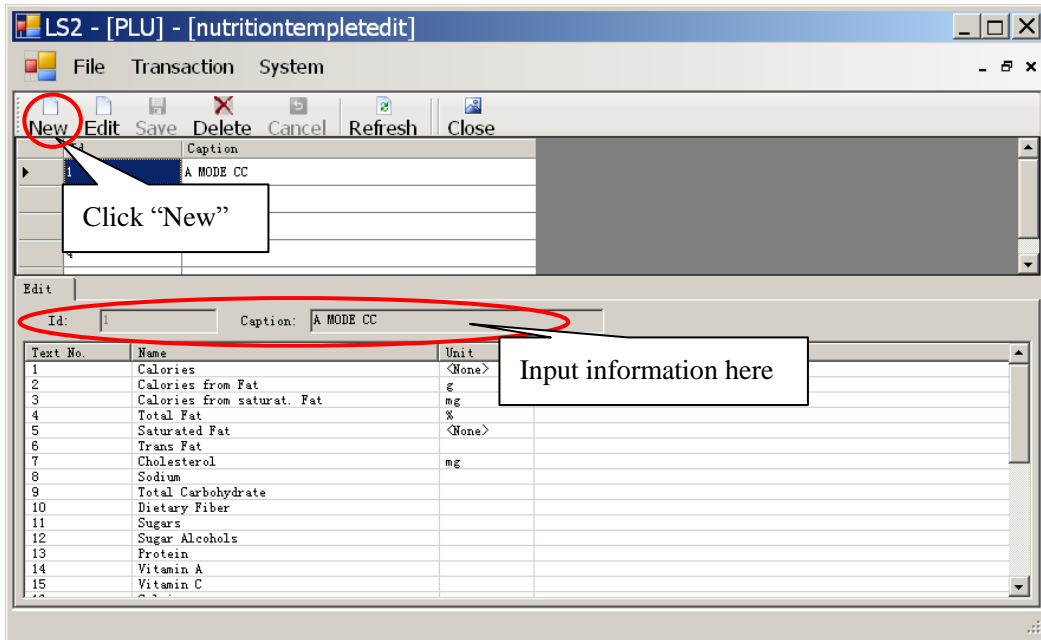

6.11 Nutrition template

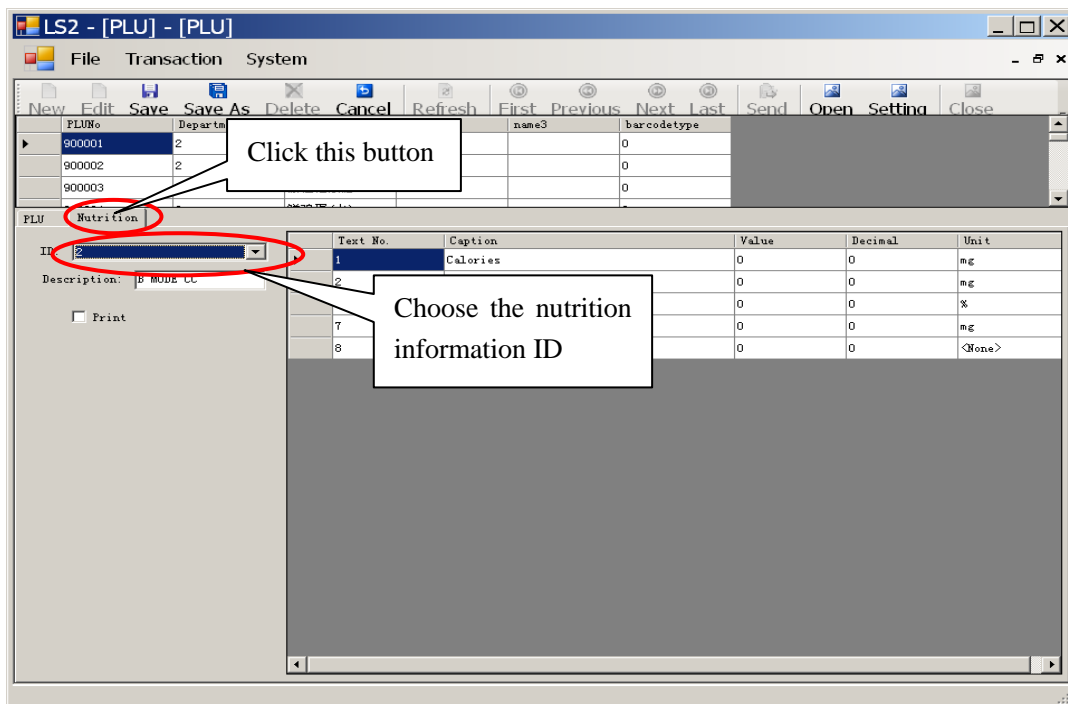

◆ Edit nutrition information

Choose and click "File---nutrition template"

◆ Use the nutrition information

6.12 How to edit nutrition

Choose and click “File---- PLU”

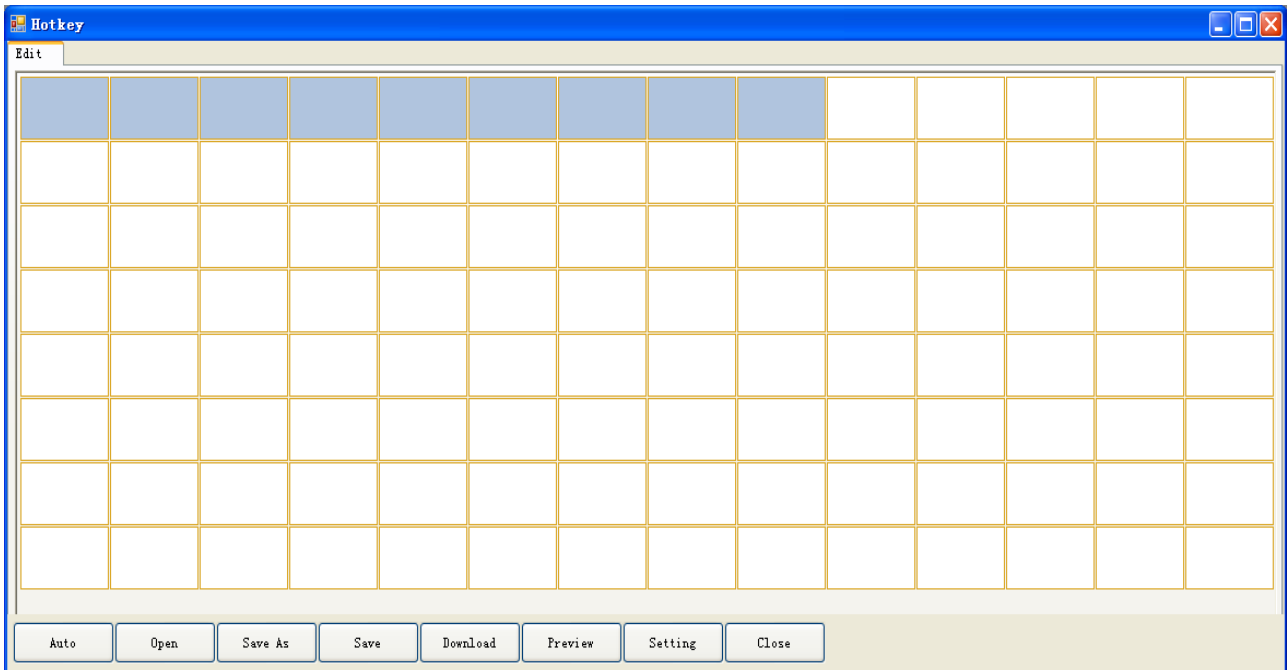

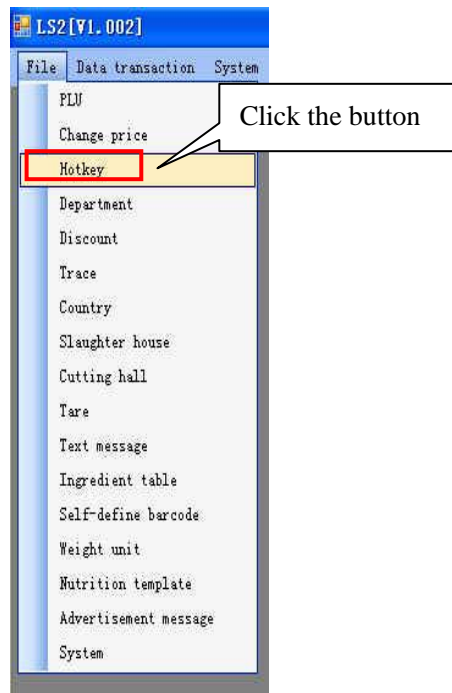

The screenshot shows the LS2 - [PLU] application window. The menu bar includes File, Transaction, and System. The File menu is open, and the 'Edit' option is circled in red. A callout box points to 'Edit' with the text 'Click “Edit”'. Below the menu bar is a table with columns: PLU No., name1, name2, name3, labelno, weightunit, unitprice, packagetype, and packageweight. The table contains seven rows of data. A callout box points to the table with the text 'Choose this interface'. Below the table is a 'Nutrition' tab, also circled in red. A callout box points to the 'Nutrition' tab with the text 'Edit the nutrition in this area'. The 'Nutrition' form includes a dropdown for 'ID', a text field for 'Description', and a 'Print' checkbox.

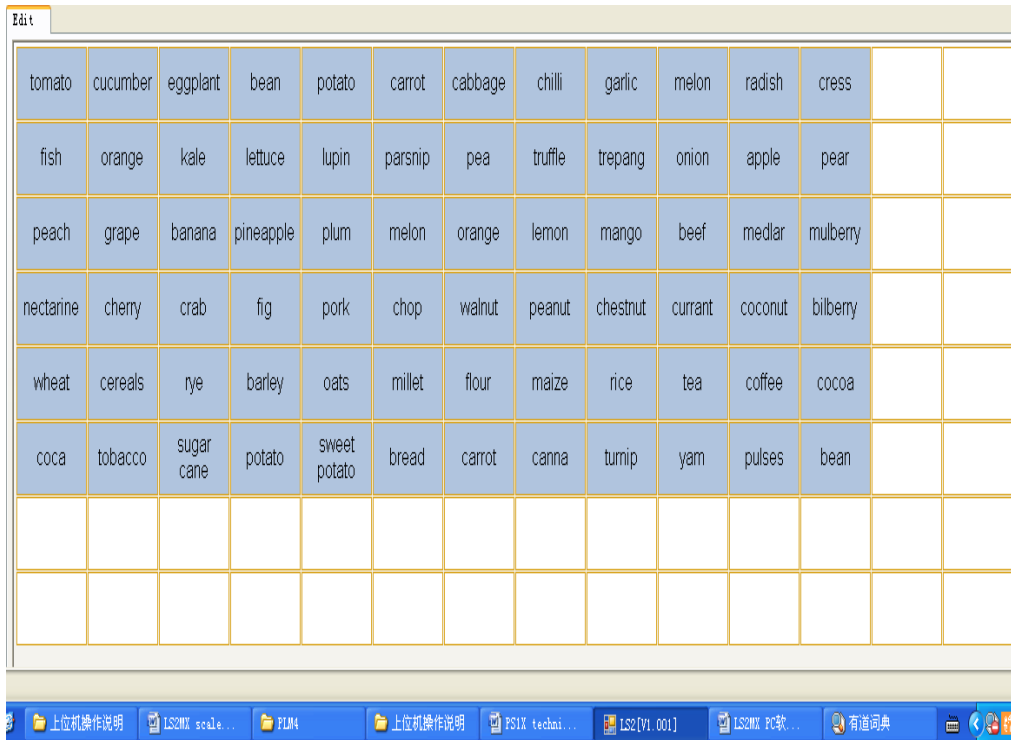

PLU No.	name1	name2	name3	labelno	weightunit	unitprice	packagetype	packageweight
900001				0	0	10	0	0
900002				0	0	8	0	0
900003				0	0	12	0	0
900004				0	0	15	0	0
900005				0	0	20	0	0
900006				0	0	8	0	0
900007				0	0	13	0	0

After your editing, please press “save” to keep information.

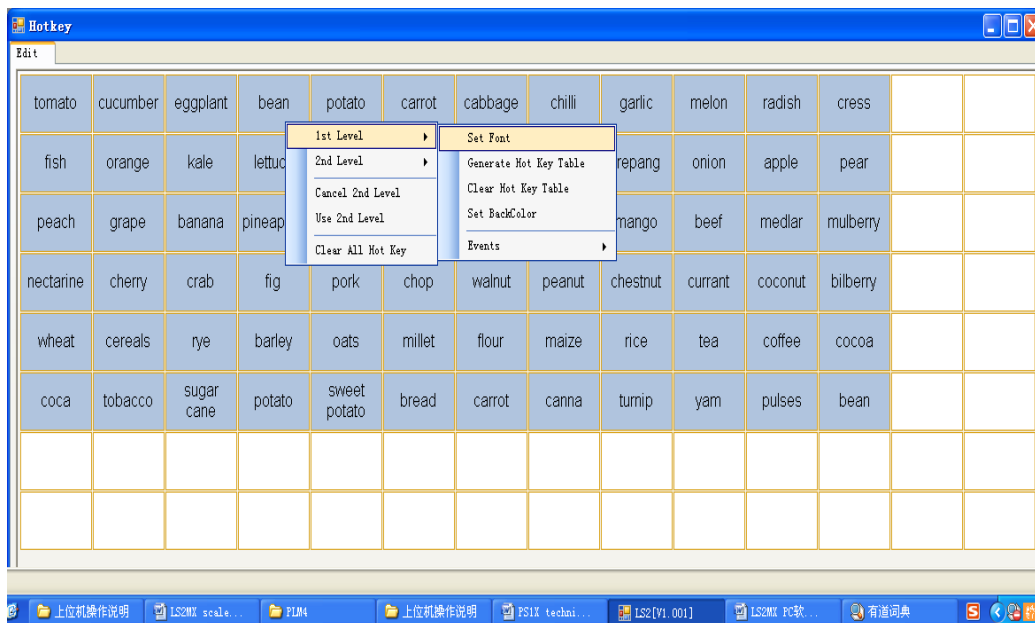

7 HOEKEY

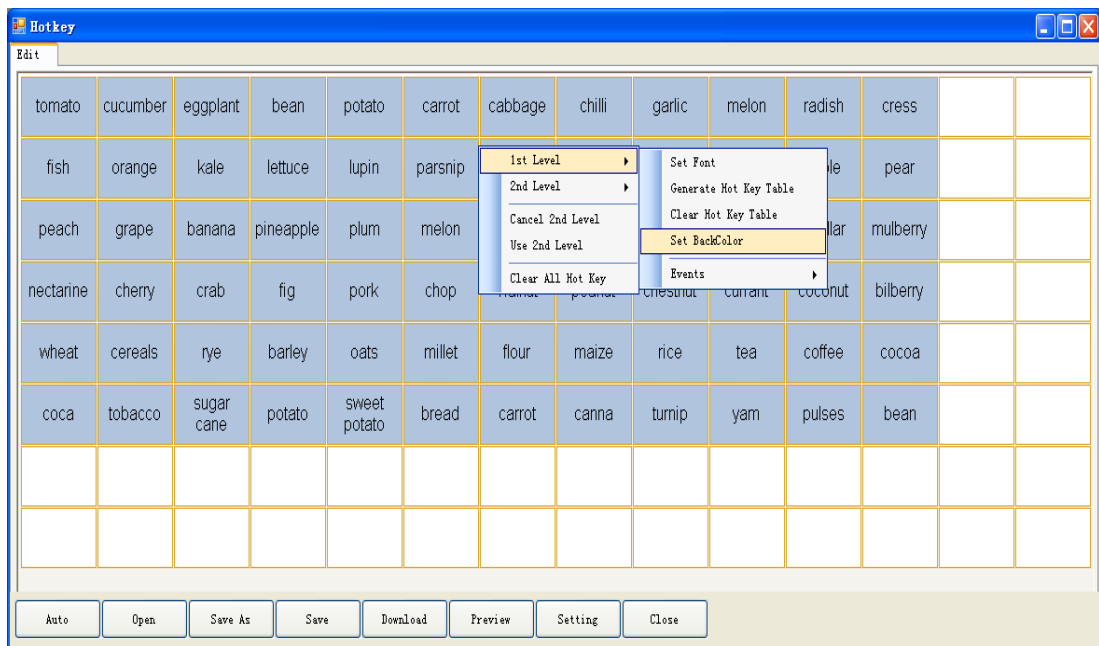

This chapter is to explain for you how to make hotkey sheet. Click “File---Hotkey”

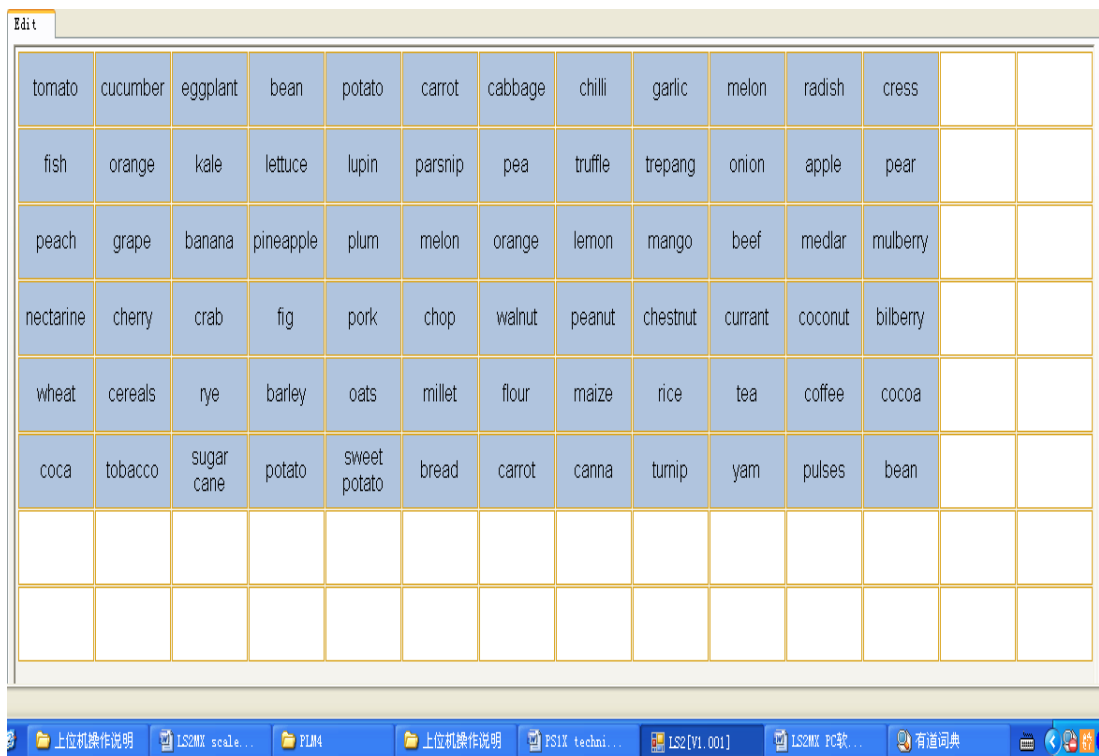

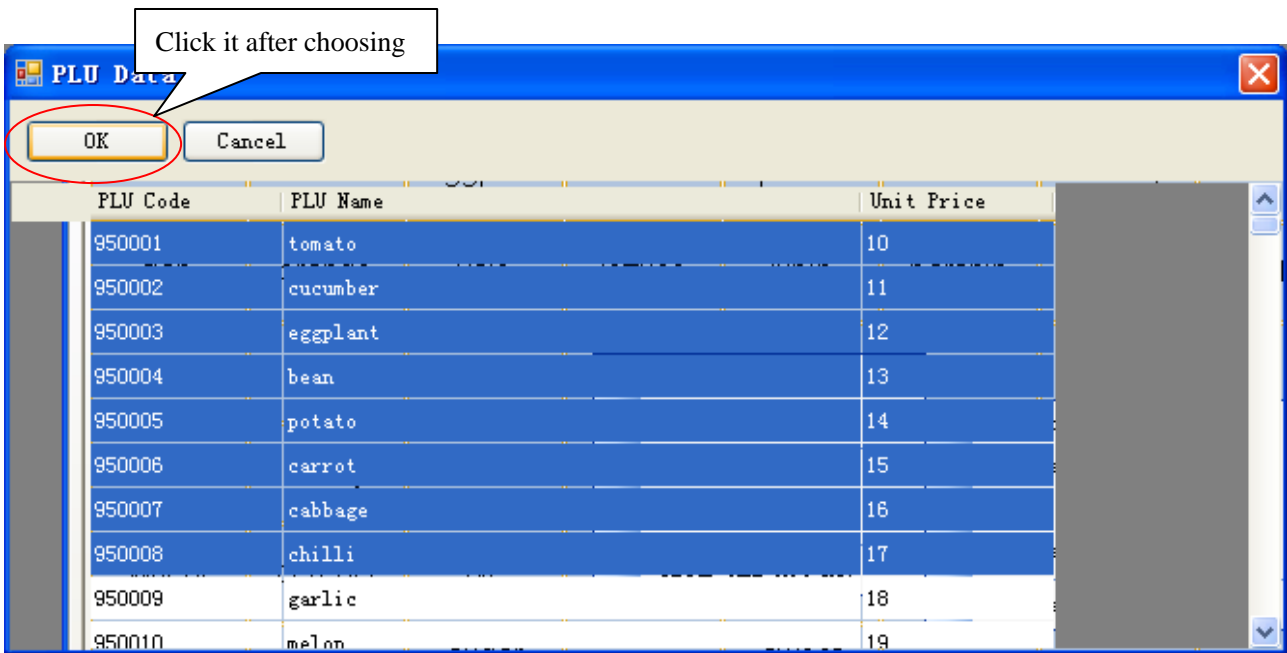

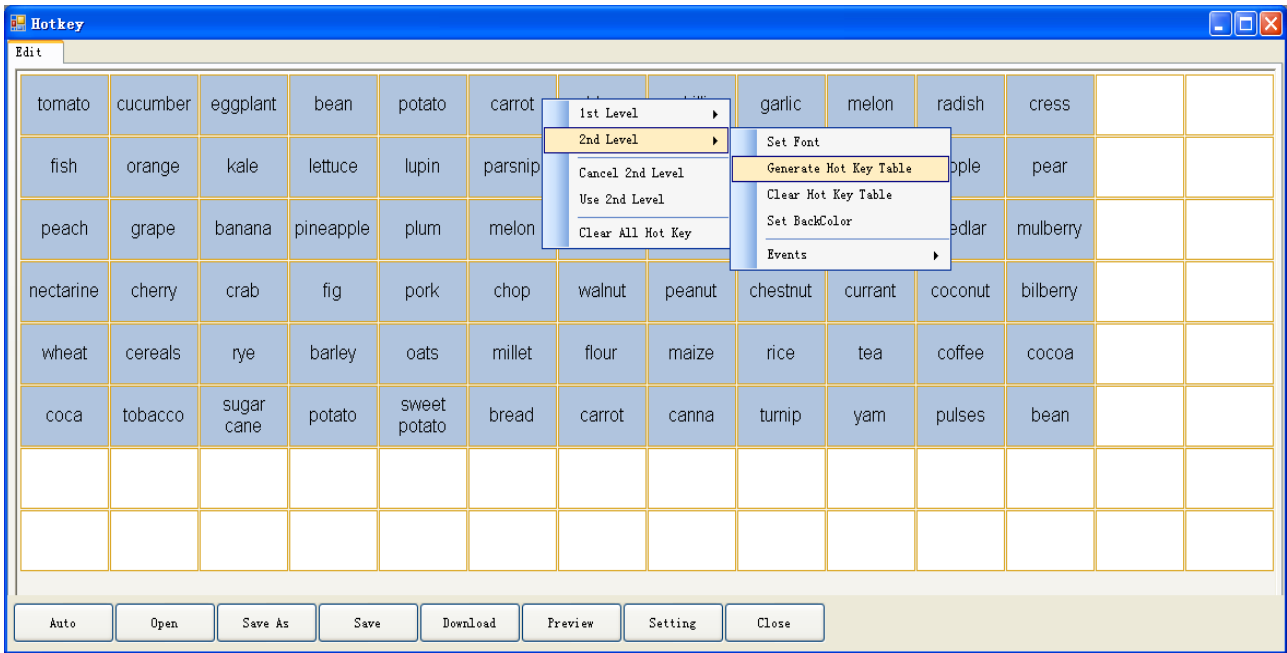

Then, if you are not satisfied with the font, or back color you can set what you need like below
 Clear Hot Key Table--- clear all messages on the hot key table.

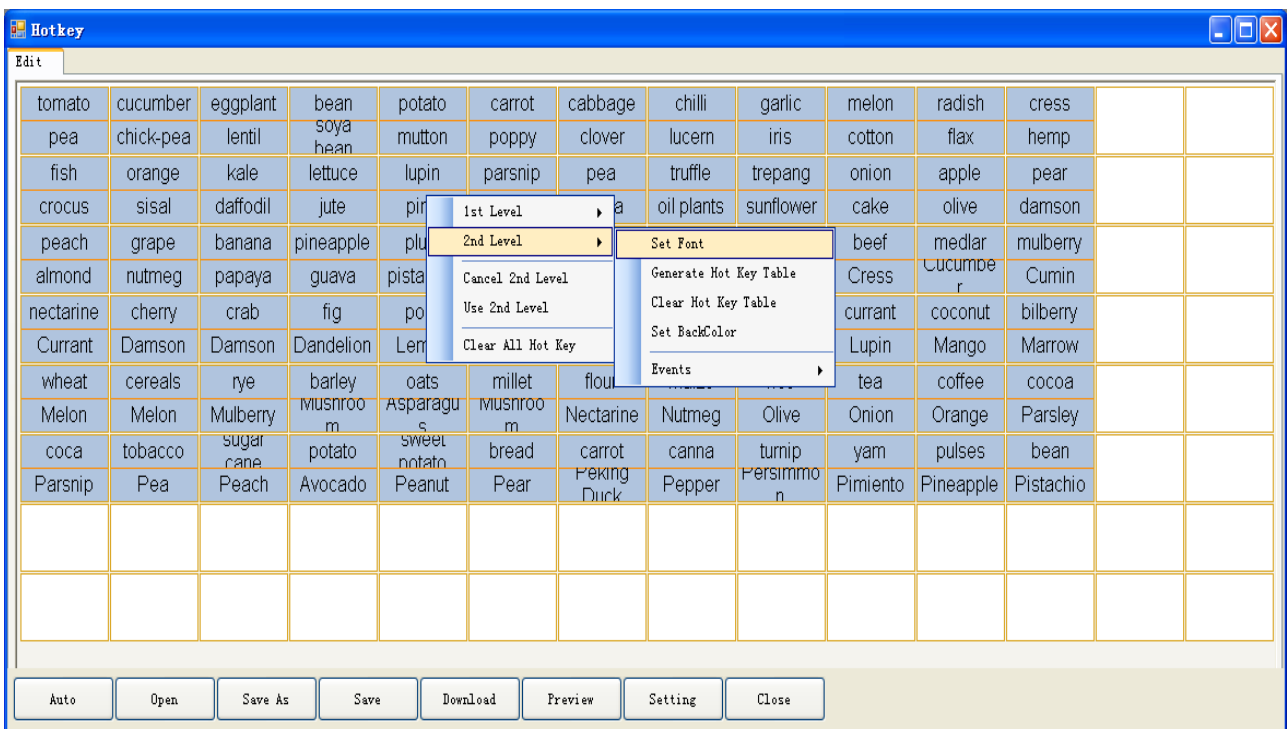

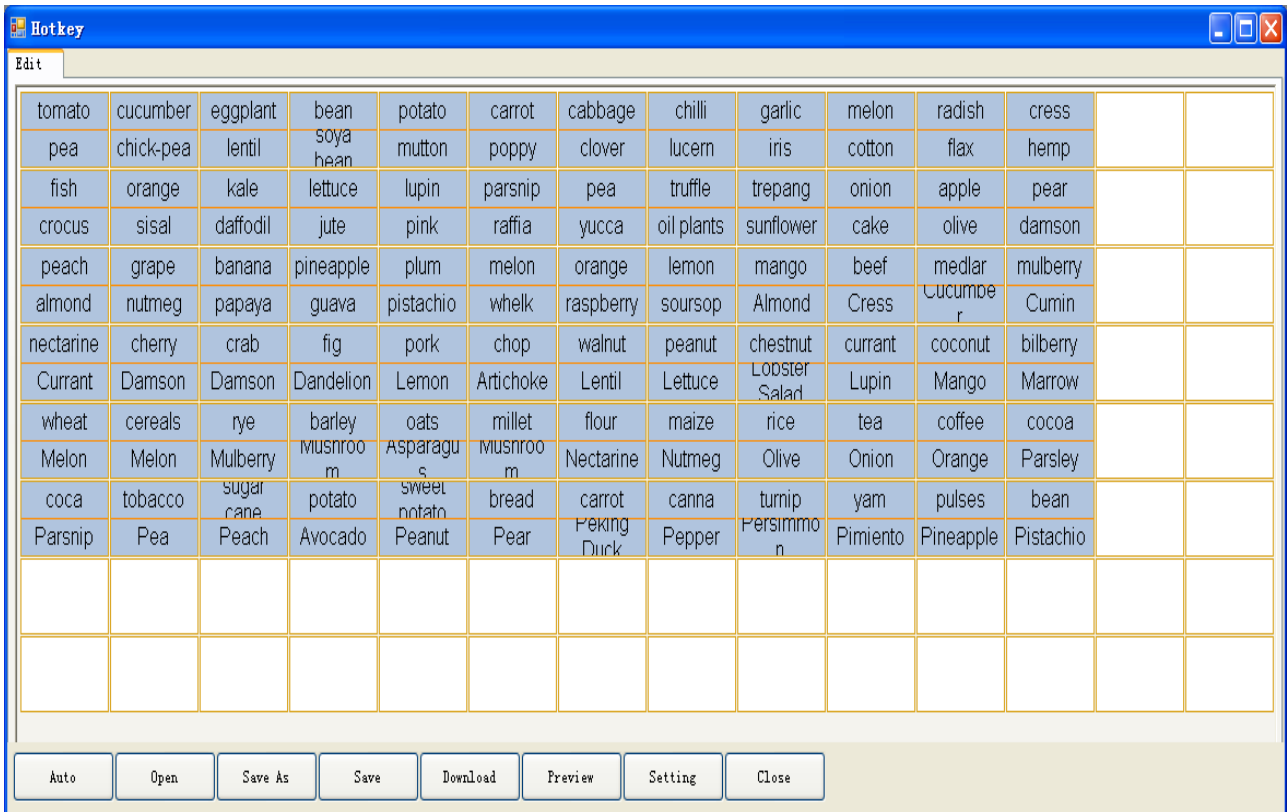

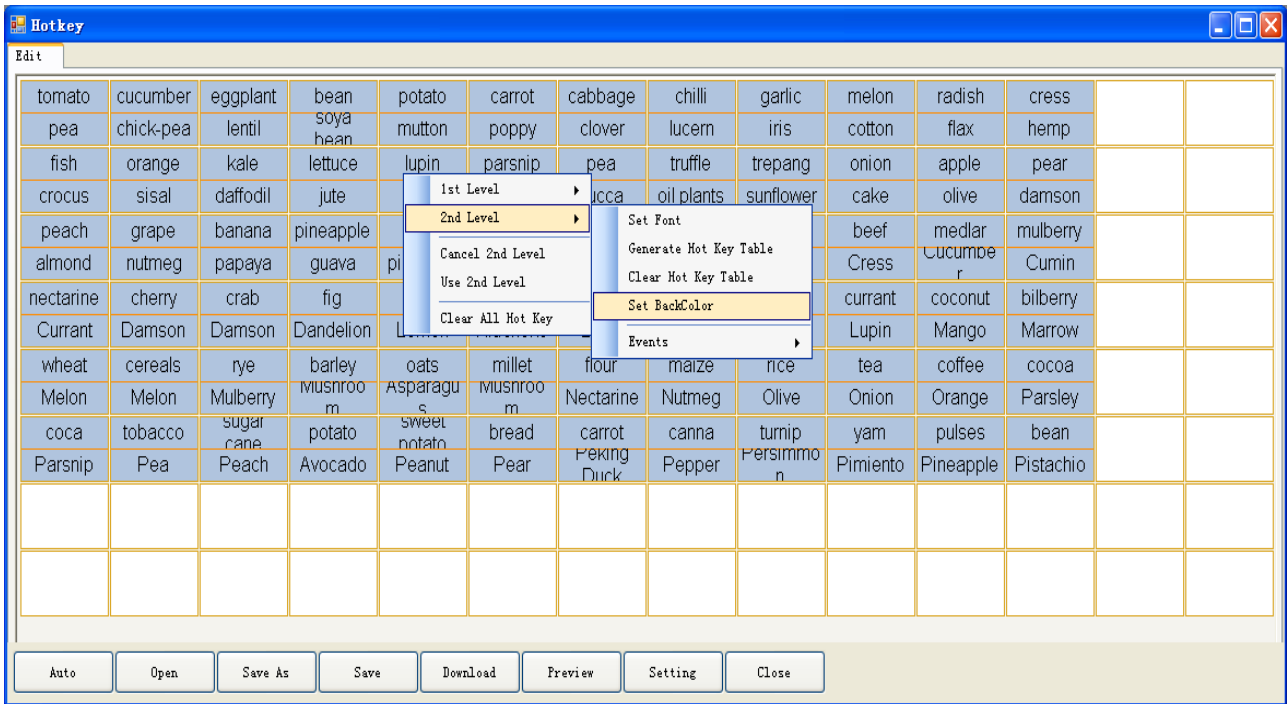

2st level:

Other function:

- 1) Use 2nd Level: choose this item to use the second level on hotkey table.
- 2) Clear All Hot Key: clear all messages on the hot key table.
- 3) Click 'Preview' to preview the hotkey table:
- 4) Click 'Download' to download the hotkey table to scale.
